## REVIEW OF PEARSON SCIENCE 9

- It is said that George Orwell lifted some material for "1984" from this book, and one can truly see the parallels. "We" is a masterpiece; though not always as involving as "1984", it is well constructed and powerful. A fairly quick read, "We" will keep you interested and leave you with an interesting literary history lesson.

- Odd that so many consider this book to be SF, but more odd still that not one

reviewer sees the many parallels between "We" and Ayn Rand's "Anthem" (her best work, IMHO.) Rand lived and was educated in St. Petersburg, also the home of Zamyatin and a group of "supressed" Bolshvic writers. Although younger than Zamyatin, "We" was circulated "underground" within a circle of Russian writers, and it is hard to believe she did not read it (and meet him) before emigrating to the USA. Interesting, too, is that her novella "Anthem" was first published in Britain, in 1937, just after Zamyatin died in Paris. Also, "Anthem" is written in the form of a personal journal. Rand loved to brag that she had beaten both Orwell and Huxley into print with "Anthem." Of course it's much easier to improve someone else's work, than to create your own, which is exactly what I believe Rand did. Why not read both and decide for yourself? You'll find "Anthem" far more poetic (in English); but she is serious, whereas Zamyatin is brilliantly satirical.
