## **REVIEW OF UNDERSTANDING ENGINEERING MECHANICS STATICS PYTEL SOLUTION PHILIPPINE EDITION**

- My daughter saw "How to Pray" on our living room coffee table where I had been reading. She said why on earth do

you need to read a book about 'how to pray'? I laughed and said we can never know too much about prayer and how to do it. I've been a Christian for a long time and thought I had an "ok" prayer life...but this book has certainly opened my mind to new and wonderful avenues of prayer. My prayer life has become more real to me and more beneficial to my life. How to Pray has been placed among my most treasured books and those that I refer to often. I do not LOAN this book...if need be...I purchase it and give it away. Mine is all marked up with pen, pencil, dog-eared and book marked with special comments/ideas, etc. Your life will benefit from reading this book.

- If you have a home gym and are looking for tips and some regimes to follow, this is an excellent book
