REVIEW OF INTERNATIONAL JOURNAL OF GEOTECHNICAL ENGINEERING

- Rabbi Berkovits examines the crisis of faith of modern man. He defines the sense of meaningless which has come to a Mankind which feels itself alone in an indifferent Cosmos. He sees that there has been a disintegration of traditional value systems. This sickness he sees as having also invaded traditional

Judaism. He strives to understand how Judaism can provide meaning in a variety of areas of life, including in sexual ethics, in the place of the woman in society, in the state of Israel. He argues that there needs to be a new Jewish revival of spirit. He says that this should involve a Jewish movement toward combining religious and secular learning. He says that the Jewish world must find its meaning in greater unity, greater mutual caring and concern. He concludes the work as follows: "Contemplating the dangers besetting all Israel, the threats to our very survival- not at all unlike those in the days of Nazism- how can we think of facing the challenges of the hour without the strongest possible unity of all Israel, without the highest grade of responsibility toward Klal Yisrael, without being carried forward by the deepest sense of Ahavat Yisrael? How can we do it without realizing that Bein kakh uvein kakh , either way, such are the Jews God has still left; that either way, they are the only brothers and sisters still left us, upon whom alone we may count and who count on us!" Rabbi Berkovits wrote these words nearly thirty years ago at the time of the Yom Kippur War. They of course apply today when Israel and the Jewish people are encountering a new evil combination of anti- Semitism from extreme left and Islamic fundamentalist right. This is a book that

speaks to the Jewish crisis even today.

- A journal is more than what is between the covers. You can express yourself just as much with the exterior of your journal as you do inside your journal. I didn't just love this book, I adored it! It is filled with ideas, images and inspirations. A journal is one of the most personal items a person can have. After

reading this book it seems like a natural progression to make it even more personal by making it a piece of art. This leads me to my next comment. This book is not just for people who journal. It would be a great selection for anyone who loves paper arts such as scrapbooking, collage, or book making. If you love the magazine Somerset Studios you'll love this book!
