## REVIEW OF LONE TIGER AND CUB

- This book is simply awful. The author makes a number of references to the fact that we are geeks. He may be, but I dont care for the assumption that I am. Does he think its cool to be a geek? You get the feeling that he doesnt, but uses it as a way to come down to other peoples level. This guy appears to have a very high opinion of himself. Add to that a plug for his wifes company on P228, pointless analogies and 17 pages of print out from a netware server configuration file which is useless irrelevant and meaningless. Sheesh. Be kind to your wallet and your brain. Buy something else.
