## **REVIEW OF AN INTRODUCTION TO ENGLISH SYNTAX JIM MILLER 9780748633616**

- I have an Ivy League MBA but still learned some things from this book, even though I was reading it purely for entertainment (which it was). I wish I could go back and make some of my instructors, a few of whom came out of the investment world, read this novel, because now I know the answer to the question I always wanted to ask them: "If you're so damned smart, why ain't you rich?"
- I've read the book, and Bill Yenne's too. Both books offer up different points of view and are both valid. Problem is the person who posted this... Full of errors and false information Reviewer: A

reader from the United States November 28, 1999 Seems to have some issues with Sandra Curtis and the people who own the character Zorro. I mean belittling someone the way this person did in their review of the book just shows that the person has no valid points on the book because anything the person has said seems to be colored by some other issue not known to those who have come to maybe purchase the book. For those of you out there looking for information on Zorro. This book does give you some of the information and is quite good. Disregard the person with the personal problem and their review. Pick the book up, it's worth the money and also if you can get your hands on the Bill Yenne book do so also. They book will make any "true" Zorro fan happy.
