George Orwell was a much-respected English novelist, who wrote some of the finest pieces in literary criticism, fiction. Orwell's work is known for its simplicity and wit. He wrote with smartness on subjects such as anti-fascism, democratic socialism etc. His best works include "ANIMAL FARM". It's an allegorical novella. It got published in August 1945. The fiction based on Farm animals, the author has named them too. Such as Major (a majestic-

looking pig), 3-dogs (Bluebell, Jessie, and Pincher), many hens, pigeons, ducklings, sheeps and cows. Two horses, Boxer and Clover. Amongst them, Major is their leader. He wanted to speak on "the nature of life on this earth" and "How any animal is now living". The author has nicely elaborated through these Characters about the animals' misery and slavery. Animals complain that despite their hard labour, why then do they continue in the miserable condition? They also complain about human beings that they use to steal nearly the whole of their produce. Their main enemy is - Man. So, remove Man from the scene and the root cause of hunger and overwork will be

abolished for ever. The book narrates about the agony of ill-treated farm animals. Then what decision they take and how this Animal Farm born, everything has become very interesting. The ultimate satire on fascism. A must-read book. □A Wise, Compassionate, and Illuminating Fable for our Times□ THE NEW YORK TIMES □Orwell□s Satire is Amply Broad, Cleverly Conceived, and Delightfully Written□ SAN FRANCISCO CHRONICLE □Absolutely First-Rate... How is meaning constructed discursively by participants in problem discourse? To which discursive resources do they resort in order to accomplish their complicated tasks of problem presentation and negotiation of possible solutions? To what extent are these resources related to the interactional and meaningful

construction of succinct story-internal problems and tropes such as solutions? Irit Kupferberg and David Green- a discourse analyst and a clinical psychologist- have explored naturally-occurring media, hotline, and cyber troubled discourse in a quest for answers. Inspired by a constructivist-interpretive theoretical framework grounded in linguistic anthropology, conversation analysis, narrative inquiry, and clinical psychology as well as their professional experience, the authors put forward three novel claims that are illustrated by 70 attention-holding examples. First, sufferers often present their troubles through detailed narrative discourse as well as

succinct story-internal tropes such as metaphors and similes- discursive resources that constitute two interrelated versions of the troubled self. Particularly interesting are the intriguing figurative constructions produced in acute emotional states or at crucial discursive junctions. Second, such figurative constructions often 'lubricate' the interactive negotiation of solutions. Third, when the figurative and narrative resources of self-construction are employed in the public arena they are used and sometimes abused by the media representatives, depending on a plethora of contextual resources identified in this book.

Among the issues confronting America is long-term care for frail, older persons and

others with chronic conditions and functional limitations that limit their ability to care for themselves. Improving the Quality of Long-Term Care takes a comprehensive look at the quality of care and quality of life in long-term care, including nursing homes, home health agencies, residential care facilities, family members and a variety of others. This book describes the current state of long-term care, identifying problem areas and offering recommendations for federal and state policymakers. Who uses long-term care? How have the characteristics of this population changed over time? What paths do people follow in long term care? The committee provides

the latest information on these and other key questions. This book explores strengths and limitations of available data and research literature especially for settings other than nursing homes, on methods to measure, oversee, and improve the quality of long-term care. The committee makes recommendations on setting and enforcing standards of care, strengthening the caregiving workforce, reimbursement issues, and expanding the knowledge base to guide organizational and individual caregivers in improving the quality of care.

## **REVIEW OF STATE OPERATIONS MANUAL CHAPTER 3**

- In the Atwater's dated but daft story an average family in Stillwater achieves national notoriety thanks to their unusual pets: a dozen penguins. A modest housepainter and decorator, Mr. Popper has an armchair passion: anything and everything to do with the North and South poles. He has even written to the famous explorer, Admiral Drake. To his delighted

amazement the generous scientist sends him a real live penguin as a surprise gift! Popper is thrilled, of course, but the family and the house must make considerable adjustments to accommodate the tastes and talents of a pro-social but inquisitive bird. Always dressed in his tuxedo best, the newcomer is named Captain Cook and causes quite a sensation in the quiet town. Enhanced by the illustrations of Robert Lawson (Make Way for Ducklings) this silly story is a cute book for young readers. Prices and vocabulary seem quaint by today's standards, but kids will enjoy the comical struggle of human-penguin relations. Despite the credit

craze of the 30's, the Poppers worry about the terrible expense of extra refrigeration, imported fish and a basement ice rink. But how can a dozen delightful penguins help with their own room and board? This tale remains a fun read from a simpler time.

- I had all forgotten about this book until I happened to come across the title here on Amazon. The plot is a little fuzzy these days, as it has been years since I last read it, But I certainly remember how much I enjoyed it, and how I asked my mother if we too could have a penguin in the icebox. Any book that captures the imagination of a child and encourages him or her that reading doesn't have to be a boring chore gets five

stars from me, and this charming story certainly satisfies those requirements.
