Remember, checking out testimonials can aid you make informed decisions regarding what to review next and can subject you to brand-new authors and genres you may not have actually thought about in the past.

REVIEW OF THE DOVER BRONZE AGE BOAT IELTS READING ANSWERS

- While I do enjoy the overall storyline, and I have to give him credit for being somewhat inventive in his explanations, the dialogue is downright awful. No, it's not Star Wars Episode I-III bad, but it's bad. The main character is flawed, but probably not in the way the author intended. Some of the interaction between he and the "amazingly, jaw-droppingly, super duper incredibly incomprehensibly beautifully gorgeous OH MY GOD" elf, Alya, is nauseating. ("You're here to fight?! It's too dangerous!"). This in

spite of the fact that she had just the other day easily defeated him in a duel with only one hand on her sword. She not only outclasses him in every way possible, but she's much faster, stronger and, it seems, smarter. Another serious problem with this novel is the vocabulary. I'm 19, and had a vocabulary roughly equal to that of a 22 year old when I was 15- which is the base age he's catering to- and there were at least twenty words which I didn't know the meaning of, ten of which I had never even seen before- most of this in the second half of the book, for whatever reason. And that isn't counting the words he seems to have made up. It is, though, counting absurdly obscure words like "wyrd," no pun intended- from Greek mythology, and then continues to use them as if they're actual words. Now I'm not complaining, looking up words is no problem, but I can't imagine what it would have been like for me at 13 trying to wade through the book. He uses a lot of words that aren't even every-day, like names for specific types of quartz. It's a little maddening, and you just know he's doing it on purpose, because he'll use the same words again later in the book instead of using synonyms- which anyone with a brain knows, you're supposed to do. Remembering names proved quite easy, though not for all the ridiculously convoluted names he

gave to his cities; though perhaps for lack of effort- they were so ridiculous I just rolled my eyes. I strongly dislike the way he talks about magic, with stupid little phrases like, "but you must be the one to wield the magic." Give me a break. All the dialogue is in perfectly proper English; no contractions, no slang, except when they are talking to the lowly enemy guards, where they speak in an dramatically overdone lower-class dialect. Apparently, Paolini doesn't realize that just because they're the enemy, they don't necessarily have to be stupid. It does turn the pages pretty well, though I'm not sure if it's because I'm trying to escape the horrid dialogue to get to the more interesting parts or not. It seems all I've done is complain, which actually isn't what I intended to do, but I just can't think of enough positives to bother writing about. Despite this, it's worth picking up, though probably not worth buying the hard cover version. It seems to me he not only pulled on the obvious Lord of the Rings, but Star Wars and even Harry Potter.

- This is the greatest Action/Adventure/Fantasy books I have ever read. It gives great details, very good storyline, and even a few twists to make it extra-interesting. I'm looking eagerly looking forward to reading Eldest.
