REVIEW OF DONALD DUCK PAPER TOY

- I think MOLL FLANDERS is my favorite novel of all time. The novel form was in its infancy at the time MOLL FLANDERS was written. In fact, Defoe is often called "the father of the English novel." Actually, as a novel it's very primitive. Defoe's fiction is usually a first person narrative told by an ambitious person, recounting how he got where he is today. In Moll Flanders, Defoe presents the autobiography of a woman who rises from an ignominious birth in Newgate Prison, and a childhood as a servant. Early on, Moll learns that she is beautiful and that she is attractive to the opposite sex. What's great about the book is its delicious irony. Oh there are times when she gets caught in her own traps, she's a sly one, that Moll. It's very difficult at times to think of Moll as a fictional character. But she is, in fact, the first great female character in English prose. I never cease to be amazed that the book was written by a man. There are moments in the book that I find very moving, like when she realizes that she's no longer pretty enough to attract men without resorting to makeup. "I never had to paint my face before." And of course there's that unsettling surprise she receives toward the end of the novel. This is a great and important book and hardly anyone has read it. I don't know why. I have recommended this book to probably a hundred people. To the best of my knowledge, not a single one of them has taken my advice. It's their loss. I LOVE Moll Flanders.

- I have been trying to read this book for several months now and I can't become interested enough to get into it for more than one or two evenings a month. The story itself is intriguing but seems to go on forever, though the novel itself is quite short. Keeping all the men in Moll's life straight gets confusing. Renting the movie would be much less cumbersome.
