Thank you for choosing our system for your PDF downloads. We look forward to giving you with outstanding solution and varied options for several years to find.

REVIEW OF CHAPTER 15 THE CLAUSE PAGES

470 REVIEW A INDEPENDENT AND

- The author touts the book's simplicity and ease of use in learning COM. And the book does have a few nice block diagrams that show some client-server sequences in error handling, automation, etc. But actually the book does not flow particularly well. Some of the examples aren't well drawn. Subjects such as enumerators, collections, callbacks, and connection points are either not covered at all or mentioned in passing within another subject. Other topics are covered in a bits-and-pieces style that doesn't quite explain. I don't believe that a COM novice would get too much out of this book. Only a COM knowledgeable person could fill in the gaps that this book leaves. But that's not who the book is for. I'll recommend "Developer's Workshop to COM & ATL" by Troelsen for anyone wanting to learn COM/ATL. That book ranges from basics to full-blown coverage. It is the best out there.
- Great and enjoyable book to read. Only way to find out is to purchase the book. So I recommend anyone to buy it...
