**Giving Is the Good Life** Thomas Nelson

The troubling ethics and politics of philanthropy Is philanthropy, by its very nature, a threat to today's democracy? Though we may laud wealthy individuals who give away their money for society's benefit, Just Giving shows how such generosity not only isn't the unassailable good we think it to be but might also undermine democratic values. Big philanthropy is often an exercise of power, the conversion of private assets into public influence. And it is a form of power that is largely unaccountable and lavishly tax-advantaged. Philanthropy currently fails democracy, but Rob Reich argues that it can be redeemed. Just Giving investigates the ethical and political dimensions of philanthropy and considers how giving might better support democratic values and promote justice.

Say Yes gives you the mental and spiritual practices you need to enjoy your life again--and bring greater fullness than you could imagine before. "My life doesn't look anything like I wanted it to. How do I even keep going?" When the dreams for our life die, our vision of who we hoped to become often dies too. That's when The Voice of Giving Up appears. Visual artist and spiritual director Scott Erickson has had long midnight conversations with The Voice of Giving Up, and he knows how anxiety and depression make The Voice especially loud. But he's discovered that our darkest moments are sometimes doorways to a deeper, more joy-filled journey of recovering who we are, why we're here, and why the future bursts with possibilities if we are willing to say yes to life's brightest gifts. In Say Yes, Scott helps you learn how to reawaken your deepest desires, disempower your greatest fears, and identify the destructive narratives holding you back. Combined with Scott's beautiful, thought-provoking illustrations, this is a profound exploration of beginning again after: Disappointment at how life is turning out Suspecting we are not prepared or smart enough Losing hope that change is possible and that pain can have a purpose Take the first step to gain the gentle yet powerful tools you need, and say yes to what lies ahead today.

Most of us want to make a difference. We donate our time and money to charities and causes we deem worthy, choose careers we consider meaningful, and patronize businesses and buy products we believe make the world a better place. Unfortunately, we often base these decisions on assumptions and emotions rather than facts. As a result, even our best intentions often lead to ineffective—and sometimes downright harmful—outcomes. How can we do better? While a researcher at Oxford, trying to figure out which career would allow him to have the greatest impact, William MacAskill confronted this problem head on. He discovered that much of the potential for change was being squandered by lack of information, bad data, and our own prejudice. As an antidote, he and his colleagues developed effective altruism, a practical, data-driven approach that allows each of us to make a tremendous difference regardless of our resources. Effective altruists believe that it's not enough to simply do good; we must do good better. At the core of this philosophy are five key questions that help guide our altruistic decisions: How many people benefit, and by how much? Is this the most effective thing I can do? Is this area neglected? What would have happened otherwise? What are the chances of success, and how good would success be? By applying these questions to real-life scenarios, MacAskill shows how many of our assumptions about doing good are misguided. For instance, he argues one can potentially save more lives by becoming a plastic surgeon rather than a heart surgeon; measuring overhead costs is an inaccurate gauge of a charity's effectiveness; and, it generally doesn't make sense for individuals to donate to disaster relief. MacAskill urges us to think differently, set aside biases, and use evidence and careful reasoning rather than act on impulse. When we do this—when we apply the head and the heart to each of our altruistic endeavors—we find that each of us has the power to do an astonishing amount of good.

Before the 99% occupied Wall Street... Before the concept of social justice had impinged on the social conscience... Before the social safety net had even been conceived... By the turn of the 20th Century, the era of the robber barons, Andrew Carnegie (1835-1919) had already accumulated a

staggeringly large fortune; he was one of the wealthiest people on the globe. He guaranteed his position as one of the wealthiest men ever when he sold his steel business to create the United States Steel Corporation. Following that sale, he spent his last 18 years, he gave away nearly 90% of his fortune to charities, foundations, and universities. His charitable efforts actually started far earlier. At the age of 33, he wrote a memo to himself, noting ..".The amassing of wealth is one of the worse species of idolatry. No idol more debasing than the worship of money." In 1881, he gave a library to his hometown of Dunfermline, Scotland. In 1889, he spelled out his belief that the rich should use their wealth to help enrich society, in an article called "The Gospel of Wealth" this book. Carnegie writes that the best way of dealing with wealth inequality is for the wealthy to redistribute their surplus means in a responsible and thoughtful manner, arguing that surplus wealth produces the greatest net benefit to society when it is administered carefully by the wealthy. He also argues against extravagance, irresponsible spending, or self-indulgence, instead promoting the administration of capital during one's lifetime toward the cause of reducing the stratification between the rich and poor. Though written more than a century ago, Carnegie's words still ring true today, urging a better, more equitable world through greater social consciousness.

What if giving can change the world? Well, it can. In fact, it already has. And you have the opportunity to join in the movement that God has begun, a movement close to his own heart. Giving is how God changes the world. We're often focused on what we can take or receive from God and others. But in The Book of Giving, the author reveals that this is stunting the growth of our souls. The God who always gives-Father, Son, and Holy Spirit-has invited us into his giving circle. In that circle, we don't just hope to receive. We hope to move the giving forward-to receive, give thanks, and give back. This movement of giving is at the center of all relationships. Join the author as he uses gifts as a perspective on who God is, who we are, and what the world is like. This book is packed with reader resources to help you study yourself and grow as a giver. It's not just a book to read; it's a book to eat, a book that will energize change in your daily life. The changes God will make in the world can start inside you with the smallest seeds, with a prayer, a conversation, a cup of coffee. Change starts with giving. And you'll be amazed at the results. Come see God from a fresh perspective and find yourself anew in The Book of Giving.

This is a book about faith and moral issues facing American troops and veterans. As someone who spent four years wearing a U.S. army uniform, Edgar S. Welty has plenty of "soldier stories." But he does not start this book with those stories. Instead, Welty introduces his work with the telling of Simon's service when he carried the cross of our Lord Jesus Christ. He argues that "service" is the same as Jesus's call to "go an 'extra' or 'second' mile." Americans are called by Jesus to walk a "second mile" for American troops and veterans. This act of service is necessary because many troops are in trouble, as is demonstrated by suicide rates. Each section of this book focuses on a new issue surrounding troops and veterans.

USA TODAY, PUBLISHERS WEEKLY, AND ECPA BESTSELLER • The author of Radical takes readers on a soul-searching journey through impoverished villages in the Himalayan mountains, daring them to make a difference in a world of urgent need, starting right where they live. “Grippingly vulnerable and unforgettable. I could not put this book down.”—Ann Voskamp, author of One Thousand Gifts While leading a team on a week-long trek of the Himalayas, bestselling author and pastor David Platt was stunned by the human needs he encountered, an experience so dramatic that it “changed the trajectory of my life.” Meeting a man who’d lost his eye from a simple infection and seeing the faces of girls stolen from their families and trafficked in the cities, along with other unforgettable encounters, opened his eyes to the people behind the statistics and compelled him to wrestle with his assumptions about faith. In Something Needs to Change, Platt invites readers to come along on both the adventure of the trek, as well as the adventure of seeking answers to tough questions like, “Where is God in the middle of suffering?” “What makes my religion any better than someone else’s religion?” and “What do I believe about eternal suffering?” Platt has crafted an irresistible message about what it means to give your life for the gospel—to finally stop talking about faith and truly start living it. Praise for Something Needs to Change “Rugged. Authentic. Gritty. Real. Worshipful. There are no other books like this one. I always pick up David’s books with a sense of excitement and, quite honestly, apprehension—because I know that areas of compromise and complacency in my life are going to be exposed. But this book exceeded even my high expectations, for which I am grateful. And so will you be. As David writes, it’s time to run, not walk. Let’s go.”—J. D. Greear, president of the Southern Baptist Convention “Extraordinary and challenging. I’ve just never read a book like this before. I am so moved. Bring your full heart to this story and watch how God opens your eyes, changes your mind, and broadens the dreams you have for your life.”—Annie F. Downs, best-selling author of 100 Days to Brave and Remember God “If you dare to read this book, you might just have an unexpected encounter with Jesus that leaves you weeping on the floor, as David’s experience did. Something changes within us when the seemingly overwhelming needs of the world present themselves simply in the life of a single person. Ultimately, I pray your compassion will be transformed to action.”—Santiago “Jimmy” Mellado, president and CEO

Here, from Bill Clinton, is a call to action. Giving is an inspiring look at how each of us can change the world. First, it reveals the extraordinary and innovative efforts now being made by companies and organizations—and by individuals—to solve problems and save lives both “down the street and around the world.” Then it urges us to seek out what each of us, “regardless of income, available time, age, and skills,” can do to help, to give people a chance to live out their dreams. Bill Clinton shares his own experiences and those of other givers, representing a global flood tide of nongovernmental, nonprofit activity. These remarkable stories demonstrate that gifts of time, skills, things, and ideas are as important and effective as contributions of money. From Bill and Melinda Gates to a six-year-old California girl named McKenzie Steiner, who organized and supervised drives to clean up the beach in her community, Clinton introduces us to both well-known and unknown heroes of giving. Among them: Dr. Paul Farmer, who grew up living in the family bus in a trailer park, vowed to devote his life to giving high-quality medical care to the poor and has built innovative public health-care clinics first in Haiti and then in Rwanda; a New York couple, in Africa for a wedding, who visited several schools in Zimbabwe and were appalled by the absence of textbooks and school supplies. They founded their own organization to gather and ship materials to thirty-five schools. After three years, the percentage of seventh-graders who pass reading tests increased from 5 percent to 60 percent; Oseola McCarty, who after seventy-five years of eking out a living by washing and ironing, gave \$150,000 to the University of Southern Mississippi to endow a scholarship fund for African-American students; Andre Agassi, who has created a college preparatory academy in the Las Vegas neighborhood with the city’s highest percentage of at-risk kids. “Tennis was a stepping-stone for me,” says Agassi. “Changing a child’s life is what I always wanted to do”; Heifer International, which gave twelve goats to a Ugandan village. Within a year, Beatrice Biira’s mother had earned enough money selling goat’s milk to pay Beatrice’s school fees and eventually to send all her children to school—and, as required, to pass on a baby goat to another family, thus multiplying the impact of the gift. Clinton writes about men and women who traded in their corporate careers, and the fulfillment they now experience through giving. He writes about energy-efficient practices, about progressive companies going green, about promoting fair wages and decent working conditions around the world. He shows us how one of the most important ways of giving can be an effort to change, improve, or protect a government policy. He outlines what we as individuals can do, the steps we can take, how much we should consider giving, and why our giving is so important. Bill Clinton’s own actions in his post-presidential years have had an enormous impact on the lives of millions. Through his foundation and his work in the aftermath of the Asian tsunami and Hurricane Katrina, he has become an international spokesperson and model for the power of giving. “We all have the capacity to do great things,” President Clinton says. “My hope is that the people and stories in this book will lift spirits, touch hearts, and demonstrate that citizen activism and service can be a powerful agent of change in the world.”

The instant #1 New York Times bestseller! “It's the best memoir I've ever read.” —Oprah Winfrey “Will Smith isn't holding back in his bravely inspiring new memoir . . . An ultimately heartwarming read, Will provides a humane glimpse of the man behind the actor, producer and musician, as he bares all his insecurities and trauma.” —USA Today Winner of the NAACP Image Award for Outstanding Literary Achievement One of the most dynamic and globally recognized entertainment forces of our time opens up fully about his life, in a brave and inspiring book that traces his learning curve to a place where outer success, inner happiness, and human connection are aligned. Along the way, Will tells the story in full of one of the most amazing rides through the worlds of music and film that anyone has ever had. Will Smith’s transformation from a West Philadelphia kid to one of the biggest rap stars of his era, and then one of the biggest movie stars in Hollywood history, is an epic tale—but it’s only half the story. Will Smith thought, with good reason, that he had won at life: not only was his own success unparalleled, his whole family was at the pinnacle of the entertainment world. Only they didn't see it that way: they felt more like star performers in his circus, a seven-days-a-week job they hadn't signed up for. It turned out Will Smith's education wasn't nearly over. This memoir is the product of a profound journey of self-knowledge, a reckoning with all that your will can get you and all that it can leave behind. Written with the help of Mark Manson, author of the multi-million-copy bestseller *The Subtle Art of Not Giving a F\*ck*, Will is the story of how one person mastered his own emotions, written in a way that can help everyone else do the same. Few of us will know the pressure of performing on the world's biggest stages for the highest of stakes, but we can all understand that the fuel that works for one stage of our journey might have to be changed if we want to make it all the way home. The combination of genuine wisdom of universal value and a life story that is preposterously entertaining, even astonishing, puts Will the book, like its author, in a category by itself.

## REVIEW OF GIVING HOW EACH OF US CAN CHANGE THE WORLD BILL CLINTON

- There's something mesmerizing and addictive about watching people on the fringe of existence, people pushed to the edge, people in dire straits or even close. In the 1920s and especially during the Great Depression of the 1930s, dance marathon fads played on this morbid fascination we have for people with hard-luck stories, people down on the luck, people at the end of their rope. With uncommon depth and insight, Frank M. Calabria analyzes audience responses to these weird spectacles, the painful agony of the competition, and the abusive treatment by walkathon show organizers and their emcees. This 1993 book also includes a wonderful collection of period photographs. As a former psychology professor, Calabria is qualified to present what is surely a unique analysis of the increasingly tortured conditions of contestants' emotion state as a dance marathon progressed. Reading Calabria's book, I suffered from an interesting paradox: throughout the descriptions of sleep-deprived, hypnotic exhaustion endured by the wretched "dancers," I found myself alert and eagerly turning to the next page.

- This book comes with a great breakdown of all the relevant math sections found on the SAT Math portion of the exam. The practice questions really help you focus on what areas you think you need the most help with. You can just skip to the sections where you feel you're the weakest and do those sections/problems. Great questions with explanations.
