REVIEW OF KUMON ANSWER BOOK LEVEL E MATH

- Civil War Two is slowly coming to
Amerika. I think within the next 20 years
you could see the rise of militant
Hispanic staging an insurrection in the
Southwest, or perhaps a
counterinsurrection against a nationalist
attack. Any way we go, the next 50 years
aren't going to be pretty.

• Mr. Lucier's core idea is to identify and purchase distressed properties before they come to public auction. He makes no secret that this requires tremendous time and effort on the investor's part. But for those who are willing to do the work, this book offers a comprehensive guide to each step of the process, from identifying distressed properties and negotiating their purchase, to selling the property for a profit. One unique strength of the book is its detailed attention to "hidden risks", the potential pitfalls in the process that are not immediately apparent to the new investor. Everyone knows that the location and condition of a property are key components of its value, but less obvious are risks associated with the legal aspects of the deal (e.g. liens against the property). Mr. Lucier is quite thorough in his explanations of all the issues to be addressed in any distressed-property deal. Finally, I can add to the testimonials of earlier reviewers in confirming that I did write an e-mail question to Mr. Lucier, and received a response in less than one hour.
