Ficino on Plato's Symposium Shephard-Walwyn Publishers

Carol V. Kaske examines how the form, no less than the theology, of Spenser's writings reveals the influence of the Bible and medieval and Renaissance Biblical hermeneutics. Her approach partakes of both the old historicism and the new. Spenser and Biblical Poetics is the first comprehensive account of the

contradictions and inconsistencies in Spenser's imagery—particularly in *The Faerie Queene*. These and his well-known contradictions in doctrine Kaske accepts and celebrates. She shows that Spenser challenges the reader with problems arising from his endorsement of both Protestant and Catholic traditions. She connects Spenser's contradictory style not only with such religious topics (for example, adiaphorism) but also with secular ones such as colonialism, the conflict between nature and culture, and the policies of the Queen. *Spenser and Biblical Poetics* makes an indispensable contribution to the history of reading in the Renaissance.

Debating the Stars in the Italian Renaissance BRILL

Since the early 1980s, there has been renewed scholarly interest in the concept of Christian Humanism. A number of official Catholic documents have stressed the importance of "Christian humanism," as a vehicle of Christian social teaching and, indeed, as a Christian philosophy of culture. Fundamentally, humanism aims to explore what it means to be human and what the grounds are for human flourishing. Featuring contributions from internationally renowned Christian authors from a variety of disciplines in the humanities, *Re-Envisioning Christian Humanism* recovers a Christian humanist ethos for our time. The volume offers a chronological overview (from patristic humanism to the Reformation and beyond) and individual examples (Jewell, Calvin) of past Christian humanisms. The chapters are connected through the theme of Christian paideia as the foundation for liberal arts education.

Re-Envisioning Christian Humanism BRILL

Proceedings of a conference held in Sept. 2004 at Birkbeck College.

Meditations on the Soul BRILL

Spanning 24 centuries, this anthology collects over thirty selections of important Western writing about melancholy and its related conditions by philosophers, doctors, religious and literary figures, and modern psychologists. Truly interdisciplinary, it is the first such anthology. As it traces Western attitudes, it reveals a conversation across centuries and continents as the authors interpret, respond, and build on each other's work. Editor Jennifer Radden provides an extensive, in-depth introduction that draws links and parallels between the selections, and reveals the ambiguous relationship between these historical accounts of melancholy and today's psychiatric views on depression. This important new collection is also beautifully illustrated with depictions of melancholy from Western fine art.

Studies in Marsilio Ficino's Metaphysics and Its Sources
Shepherd-Walwyn Limited

Fifteen of these essays by one of the leading authorities on Renaissance Platonism explore the complex philosophical, hermeneutical, and mythological issues addressed by the Florentine, Marsilio Ficino (1433-99). Ficino was the pre-eminent Platonist of his time and a distinguished philosopher, scholar and magus who had an enormous influence on the intellectual and cultural life of two and a half centuries, and who is one of the most important witnesses to the preoccupations of his age, above all to its fascination with ancient poetry and philosophy and their uneasy accommodation as an ancient "theology" with

Christianity. Two further essays treat of cognate themes taken up by Ficino's younger friend and rival, the dazzling prince of Concordia, Giovanni Pico della Mirandola (1463-94), who was fascinated by Platonism in his youth but also by other philosophical legacies from the past, including Cabala and the Scholastic Aristotelianism of the Middle Ages. This volume's initial essay serves as an introduction to the comprehensive phenomenon of Renaissance Platonism.

The Letters of Marsilio Ficino Routledge

The Planets Within asks us to return to antiquity with new eyes. It centers on one of the most psychological movements of the prescientific age--Renaissance Italy, where a group of "inner Columbuses" charted territories that still give us today a much-needed sense of who we are and where we have come from, and the right routes to take toward fertile and unexplored places. Chief among these masters of the interior life was Marsilio Ficino, presiding genius of the Florentine Academy, who taught that all things exist in soul and must be lived in its light. This study of Ficino broadens and deepens our understanding of psyche, for Ficino was a doctor of soul, and his insights teach us the care and nurture of soul. Moore takes as his guide Ficino's own fundamental tool--imagination. Respecting the integrity and autonomy of images, The Planets Within unfolds a poetics of soul in a kind of dialogue between the laconic remarks of Ficino and the need to give these remarks a life and context for our day.

SELF-DISCOVERY AND IDENTIFICATION

The style of self-discovery and identity is also discovered in

Marsilio Ficino Three Books On Life. We see personalities dealing with their identities, both as people and within culture. This motif highlights the value of self-acceptance and the journey towards understanding one's real self.

The Planets Within Shepheard-Walwyn

Under the patronage of the Medici family, Marsilio Ficino translated into Latin and commentated on the meaning and implications of key works by Plato—including 25 of Plato's dialogues and 12 letters ascribed to the philosopher. The 40 concise articles in this collection comprise the first English translation of Ficino's works and provide an insightful glimpse into the philosophy that contributed to the Renaissance.

The Renaissance of Plotinus BRILL

Marsilio Ficino (1433-99) was one of the most influential thinkers of the Renaissance. He put before society a new ideal of human nature, emphasizing its divine potential. This title features his principles which have formed the basis of good government and inspired statesmen down the ages.

Unlocked Books AcMrs Publications

During the Middle Ages, the Western world translated the incredible Arabic scientific corpus and imported it into Western culture: Arabic philosophy, optics, and physics, as well as alchemy, astrology, and talismanic magic. The line between the scientific and the magical was blurred. According to popular lore, magicians of the Middle Ages were trained in the art of magic in &"magician schools&" located in various metropolitan areas,

such as Naples, Athens, and Toledo. It was common knowledge that magic was learned and that cities had schools designed to teach the dark arts. The Spanish city of Toledo, for example, was so renowned for its magic training schools that “the art of Toledo” was synonymous with “the art of magic.” Until Benedek Láng’s work on *Unlocked Books*, little had been known about the place of magic outside these major cities. A principal aim of *Unlocked Books* is to situate the role of central Europe as a center for the study of magic. Láng helps chart for us how the thinkers of that day—clerics, courtiers, and university masters—included in their libraries not only scientific and religious treatises but also texts related to the field of learned magic. These texts were all enlisted to solve life’s questions, whether they related to the outcome of an illness or the meaning of lines on one’s palm. Texts summoned angels or transmitted the recipe for a magic potion. Láng gathers magical texts that could have been used by practitioners in late fifteenth-century central Europe.

Marsilio Ficino and His Influence Shephard-Walwyn

If you have read one paragraph of any James Hillman book, you know Marsilio Ficino is the Godfather of archetypal psychology. This man turned Western Europe on its psychological ear. Ficino’s occult vision of eros and beauty influenced not only Botticelli and Michelangelo, but everyone else ever since who cares about love and soul. A must for your archetypal library.

The Astrological Psychology of Marsilio Ficino BRILL

To Ficino and prefaces added to his work published at this time."
"The letters cover topics from friendship to healthy living and

from the ancient philosophical tradition to biblical scholarship and medicine; there is discussion of the influence of the stars on human life, recommendations for reading books related to the Platonic tradition and reflections on the art of good writing and speaking." --Book Jacket.

Ficino on Plato's Republic, Laws, and Epinomis SteinerBooks

A manual for constructing talismans, mixing magical compounds, summoning planetary spirits, and determining astrological conditions, *Picatrix* is a cornerstone of Western esotericism. It offers important insights not only into occult practices and beliefs but also into the transmission of magical ideas from antiquity to the present. Dan Attrell and David Porreca’s English translation opens the world of this vital medieval treatise to modern-day scholars and lay readers. The original text, *Ghāyat al-Ḥakīm*, was compiled in Arabic from over two hundred sources in the latter half of the tenth century. It was translated into Castilian Spanish in the mid-thirteenth century, and shortly thereafter into Latin. Based on David Pingree’s edition of the Latin text, this translation captures the spirit of *Picatrix*’s role in the European tradition. In the world of *Picatrix*, we see a seamless integration of practical magic, earnest piety, and traditional philosophy. The detailed introduction considers the text’s reception through multiple iterations and includes an enlightening statistical breakdown of the rituals described in the book. Framed by extensive research on the ancient and medieval context that gave rise to the Latin version of the text, this translation of *Picatrix* will be an indispensable volume for students and scholars of the history of

science, magic, and religion and will fascinate anyone interested in the occult.

REVIEW OF MARSILIO FICINO THREE BOOKS ON LIFE

- I really enjoyed this book. It made me really think about what the future is going to be like and hope that it is not like the one in a Brave New World. It is full of very interesting concepts, especially since it was written in the 1930's or so. Overall, I would recommend it if you like to read for enjoyment.
- For a book on Information architecture to be useful it can either

present new ideas or it can present old ideas in a systematic manner. I am sorry to say, but this book does not neither. No new information is presented and no attempt is made to systematize the knowledge. The book is best characterized as a monologue, with lots of repetitions and banalities, and no adequate final summary. It is, perhaps, of some value for the complete novice on web design, to show that web design can be dealt with rationally, but then again, the chances that novice designers have to deal with large websites is extremely low. There is therefore no reason to buy this book. I give it two stars because it is well written and not incoherent. But why it was written, I don't know.
