REVIEW OF ISLAM

FUNDAMENTALISM AND THE BETRAYAL OF TRADITION

- 'The Fires of Heaven' is much, much improved from #4 in the series. Jordan completely eliminates every one of his overused phrases from 'TSR'. No more people muttering under their breath or smiling amusedly at another's embarrassment. (Okay, so the women still like to try on different, outrageous clothes in Tel'aran'rhiod..and they're surprised by someone every time, but no one's perfect) Like all of Jordan's books, this one bogs down a little in the middle..but it's a much shorter period than normal. The action pretty much goes straight throughout. I was left at the end wanting more.
- David Rochnik, a former student of

Stanley Rosen, provides a clear and persuasive analysis of the use and meaning of techne in Plato. As well, he devotes a chapter to the pre-Platonic inception and transformation of the term. His thesis, even 7 years later, is quite radical as it challenges much of the predominant and conventional ways of understanding Plato as a philosopher seeking a science of moral knowledge. He engages with such prominent

scholars as Marthat Nussbaum and T. Irwin. Roochnik's book is a significant contribution to the recent attempt to re-appreciate a philosopher so often seen to be a footnote to modern thinking. Finally, anyone interested in the question of technology will find this study worthwhile and very illuminating of the difference between its ancient form and the current understanding.
