## **REVIEW OF PHYSICAL SCIENCE EXAM PAPER MARCH 2014 CAPS**

- Rohinton Mistry's FAMILY MATTERS is the story of differing attitudes toward caring for the grandfather of the family. The more affluent household is repelled by the everyday requirements of taking care of an entirely bedbound elder. The less affluent household is more flexible and creative, and winds up helping grandfather through the rest of his life. Work and young children are important parts of the family equation. The

struggle to get more money in an established clerk's job winds up indirectly causing the death of his long-standing employer. There is a lot of ambiguity in the circumstances surrounding the death of the sporting shop owner at the hands of a militant Hindu association. A fatal accident kills grandfather's stepdaughter, thereby freeing the other members of the family to combine resources and residences. A happy ending is the result.

- This is the 2nd time I have read this book, and I enjoyed it just as much as the first time. Card's view of the world is right on. Awesome novel.
