REVIEW OF MATH SAMPLE QUESTION AND ANSWER JSC RAJSHAHIBOARD

- Guisler writes from the Thomistic model/classical model of the proper. His work is really helpful in this regard; however, if you are looking for biblical/exegetical theology look elsewhere. In tradition with Thomistic thinking, God is analysed through logical deductions beginning with cosmological arguments, resulting in metaphysical perfections, resulting in proof-texting.
- I visited the United States several years ago. I met several Witches I had been in correspondence with. I never met the author of this book, but I met one of their members. Very open and giving people. I didn't have enough money to get to my next city where I had reservations and pre paid hotel in Miami Florida, and they paid my way (they took up a collection among the coven). I had lost my wallet. I was amazed at the trust these people gave me. Of course I paid them back after I got back to Lleyn. But that is an example of the ethics and love these people have. And it comes out in their books. Celtic Crystal Magick was one of first I ordered. It was also the book that gave me an insight into Magick in general. Excellent magickal manual.
