Keep in mind, reviewing reviews can help you make informed choices regarding what to check out next and can expose you to new writers and genres you could not have actually taken into consideration before.

REVIEW OF A TEXTBOOK OF PRODUCTION TECHNOLOGY BY O P KHANNA

- I love this series. And this is a wonderful book, but I like Deep Wizardry much better. Poor Nita is

shipped off to Ireland, and gets into some pretty dangerous wizardry. That's okay with me. But she also meets this boy.... And then falls in love with him... And I think it was pretty mean to desert Kit after all that time. I do really like it though. But I hope with all my heart that the boy Nita met doesn't have any part in the next book.

- Somewhere between Madeleine L'Engle and Judy Blume is where this book by Diane Duane fits in. I hadn't paid attention to the fact that this was a 4th book in a series. I was caught by the cover and title and took it home with me. Despite plunging into #4 without any background on the series, it wasn't hard to pick up and follow - the story in this book stood on its own and didn't require a lot of 'flashback' referencing. The writing is strong enough - and well-suited for the teenage crowd that Duane seems to be targeting. The magical adventures and lore is interspersed with teen angst and qualms, "Not important stuff, like kissing -- how do you do it and still breathe? Is not wearing a bra a come-on?" Much more adult than the Harry Potter series, Duane goes right into battles with thick descriptions - and death in tow, not shying away from the facts of things. She also takes the time to tuck in the myth, history and lore that flush out the story. A good read - I'll take the time sometime to go back to #1 and roll forward. However - the writing here should steer readers to progress toward similarly crafted books by Alan Garner, Madeleine L'Engle, or Ursula K. LeGuin.
