FOREWORD BY GUY KAWASAKI Presentation designer and internationally acclaimed communications expert Garr Reynolds, creator of the most popular Web site on presentation design and delivery on the Net — presentationzen.com — shares his experience in a provocative mix of illumination, inspiration, education, and guidance that will change the way you think about making presentations with PowerPoint or Keynote. Presentation Zen challenges the conventional wisdom of making "slide presentations" in today's world and encourages you to think differently and more creatively about the preparation, design, and delivery of your presentations. Garr shares lessons and perspectives that draw upon practical advice from the fields of communication and business. Combining solid principles of design with the tenets of Zen simplicity, this book will help you along the path to simpler, more effective presentations.

This is a book about what many teachers know but are increasingly being prevented from talking about: that real education always involves a risk. The risk is there because, as W. B. Yeats has put it, education is not about filling a bucket but about lighting a fire. It is there because students are not to be seen as objects to be moulded and disciplined, but as subjects of action and responsibility. The Beautiful Risk of Education is organised around a critical discussion of seven key educational concepts: creativity, communication, teaching, learning, emancipation, democracy, and virtuosity. By opposing the risk aversion that characterises many contemporary educational policies and practices, Gert J.J. Biesta makes a strong argument for giving risk a central place in our educational endeavours and brings risk taking to the forefront of a critical pedagogical practice.

At the beginning of each semester in Australian universities, students entering teacher education courses are asked Why do you want to teach? The answers vary, but the most prominent response is To make a difference . Building on the market-leading success of the first two editions, Teaching: Making a Difference, Third edition, has been designed to launch students on their journey to become the kind of teacher who continually strives to deliver quality learning outcomes in all aspects of professional endeavour. Making a real difference in tomorrow s early childhood, primary and secondary classrooms is as much about understanding learning and learners as it is about understanding what makes a quality teacher and quality teaching. The unique four-part pedagogical structure of this series consistently provides students with a compass to navigate recent changes to the Australian Curriculum and practical strategies for the meaningful use of ICTs in the classroom. Part 1 The teaching profession Part 2 Understanding learning and learners Part 3 Preparation, practice and process Part 4 Effectiveness, professionalism and the future This edition draws together the voices and contemporary research of Australia s pre-eminent education academics. The culmination of their knowledge, hands-on experience and insight will help pre-service teachers develop their craft and technique and provide a framework to enable them to excel as future educators. Great teachers must maintain a broad range of skills, understandings, ideas and knowledge. They must also continually reflect on what they do and question not only their own practice, but also the ever-changing needs of their students and education at large. Teaching: Making a Difference, Third edition, empowers students to draw on the range of skills and personal attributes they will need to deal with the day to day realities of teaching, the intangibles and the serendipitous moments.

The New York Times bestselling author of The Element gives readers an inspirational and practical guide to self-improvement, happiness, creativity, and personal transformation. You, Your Child, and School is forthcoming from Viking. Sir Ken Robinson's TED talk video and groundbreaking book, The Element, introduced readers to a new concept of self-fulfillment through the convergence of natural talents and personal passions. The Element has inspired readers all over the world and has created for Robinson an intensely devoted following. Now comes the long-awaited companion, the practical guide that helps people find their own Element. Among the questions that this new book answers are: • How do I find out what my talents and passions are? • What if I love something I'm not good at? • What if I'm good at something I don't love? • What if I can't make a living from my Element? • How do I do help my children find their Element? Finding Your Element comes at a critical time as concerns about the economy, education and the environment continue to grow. The need to connect to our personal talents and passions has never been greater. As Robinson writes in his introduction, wherever you are, whatever you do, and no matter how old you are, if you're searching for your Element, this book is for you.

From the New York Times bestselling author of How We Got To Now and Farsighted Forget everything you've ever read about the age of dumber-down, instant-gratification culture. In this provocative, unflinchingly intelligent, thoroughly researched, and surprisingly convincing big idea book, Steven Johnson draws from fields as diverse as neuroscience, economics, and media theory to argue that the pop culture we soak in every day—from Lord of the Rings to Grand Theft Auto to The Simpsons—has been growing more sophisticated with each passing year, and, far from rotting our brains, is actually posing new cognitive challenges that are actually making our minds measurably sharper. After reading Everything Bad is Good for You, you will never regard the glow of the video

game or television screen the same way again. With a new afterword by the author.

Matt Copeland has created a coaching guide for both the teacher new to Socratic seminars and the experienced teacher seeking to optimize the benefits of this powerful strategy. Socratic Circles also shows teachers who are familiar with literature circles the many ways in which these two practices complement and extend each other. Filled with examples to help readers visualize the application of these concepts in practice, Socratic Circles includes transcripts of student dialogue and work samples of preparation and follow-up activities. The helpful appendices offer ready-to-copy handouts and examples, and suggested selections of text that connect to major literary works.

"It is often said that education and training are the keys to the future. They are, but a key can be turned in two directions. Turn it one way and you lock resources away, even from those they belong to. Turn it the other way and you release resources and give people back to themselves. To realize our true creative potential—in our organizations, in our schools and in our communities—we need to think differently about ourselves and to act differently towards each other. We must learn to be creative." —Ken Robinson PRAISE FOR OUT OF OUR MINDS "Ken Robinson writes brilliantly about the different ways in which creativity is undervalued and ignored . . . especially in our educational systems." —John Cleese "Out of Our Minds explains why being creative in today's world is a vital necessity. This book is not to be missed." —Ken Blanchard, co-author of The One-minute Manager and The Secret "If ever there was a time when creativity was necessary for the survival and growth of any organization, it is now. This book, more than any other I know, provides important insights on how leaders can evoke and sustain those creative juices." —Warren Bennis, Distinguished Professor of Business, University of Southern California; Thomas S. Murphy Distinguished Research Fellow, Harvard Business School; Best-selling Author, Geeks and Geezers "All corporate leaders should read this book." —Richard Scase, Author and Business Forecaster "This really is a remarkable book. It does for human resources what Rachel Carson's Silent Spring did for the environment." —Wally Olins, Founder, Wolff-olins "Books about creativity are not always creative. From the schools of ancient times to the present day, Gary Thomas explores how and why education has evolved as it has. Examining education worldwide, he explains the way schools work, noting how curricula are remarkably consistent around the world. Delving into some of the big questions, Thomas explores the history of education in this Very Short Introduction. Considering various styles such as progressive versus formal, he also explores the ideas of some of the big theorists, including Piaget and Vygotsky. Looking at different forms of education and styles of teaching, he considers the ways in which education is being improved by matching styles of learning to teaching, and ensuring that schools are more inclusive and meaningful for a broader range of students. He finishes by considering the ways in which education may develop over the coming century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

An essential book for parents to help their children get the education they need to live happy, productive lives from The New York Times bestselling author of *The Element* and *Creative Schools*. Parents everywhere are deeply concerned about the education of their children, especially now, when education has become a minefield of politics and controversy. One of the world's most influential educators, Robinson has had countless conversations with parents about the dilemmas they face. As a parent, what should you look for in your children's education? How can you tell if their school is right for them and what can you do if it isn't? In this important new book, he offers clear principles and practical advice on how to support your child through the K-12 education system, or outside it if you choose to homeschool or un-school. Dispelling many myths and tackling critical schooling options and controversies, *You, Your Child, and School* is a key book for parents to learn about the kind of education their children really need and what they can do to make sure they get it.

**Being Wrong** John Wiley & Sons

To err is human. Yet most of us go through life assuming (and sometimes insisting) that we are right about nearly everything, from the origins of the universe to how to load the dishwasher. In *Being Wrong*, journalist Kathryn Schulz explores why we find it so gratifying to be right and so maddening to be mistaken. Drawing on thinkers as varied as Augustine, Darwin, Freud, Gertrude Stein, Alan Greenspan, and Groucho Marx, she shows that error is both a given and a gift—one that can transform our worldviews, our relationships, and ourselves.

**How to Grow a Grown Up** Routledge

How leadership with love can make lasting changes, even in the toughest situations *Lead Fearlessly, Love Hard* offers real, actionable advice for those seeking to change the education system from within. While countless books, articles, and speeches decry the challenges disadvantaged students in low-performing schools face, no one has offered a clear path forward through these challenges—until now. Author Linda Cliatt-Wayman, principal of Strawberry Mansion High School in Philadelphia, grew up in the same North Philadelphia neighborhood where she now leads and fought every single day for the chance to become a part of the solution. Today, she is a turnaround principal and popular TED Talk speaker who helps children living in poverty achieve more than they ever thought possible. In *Lead Fearlessly, Love Hard*, she provides hope, optimism, and a call to action to help all students reach their true potential. Steadfast leadership and clear principles can overcome almost anything, and this book shows you how to focus your passion, apply your skills, and lead your students down the path to a better future. Discover and develop the leader within. Take responsibility and move forward every day. Give each student the critical interaction they crave. Be a force for real, positive change in neighborhood schools. Highlighting the intersection of strong visionary and strategic thinking with on-the-ground, day-to-day implementation, this narrative-driven guide tells the stories of real students and educators to show how clear principles and strong guidance can turn around schools—and the students they serve.

Frustrated by her students' performance, her relationships with them, and her own daughter's problems in school, Susan D. Blum, a professor of anthropology, set out to understand why her students found their educational experience at a top-tier institution so profoundly difficult and unsatisfying. Through her research and in conversations with her students, she discovered a troubling mismatch between the goals of the university and the needs of students. In "I Love Learning; I Hate School," Blum tells two intertwined but inseparable stories: the results of her research into how students learn contrasted with the way conventional education works, and the personal narrative of how she herself was transformed by this understanding. Blum concludes that the dominant forms of higher education do not match the myriad forms of learning that help students—people in general—master meaningful and worthwhile skills and knowledge. Students are capable of learning huge amounts, but the ways higher education is structured often leads them to fail to learn. More than that, it leads to ill effects. In this critique of higher education, infused with anthropological insights, Blum explains why so much is going wrong and offers suggestions for how to bring classroom learning more in line with appropriate forms of engagement. She challenges our system of education and argues for a "reintegration of learning with life."

The twenty-first century is a world in constant change. In *A New Culture of Learning*, Doug Thomas and John Seely Brown pursue an understanding of how the forces of change, and emerging waves of interest associated with these forces, inspire and invite us to imagine a future of learning that is as powerful as it is optimistic. Typically, when we think of culture, we think of an existing, stable entity that changes and evolves over long periods of time. In *A New Culture*, Thomas and Brown explore a second sense of culture, one that responds to its surroundings organically. It not only adapts, it integrates change into its process as one of its environmental variables. By exploring play, innovation, and the cultivation of the imagination as cornerstones of learning, the authors create a vision of learning for the future that is achievable, scalable and one that grows along with the technology that fosters it and the people who engage with it. The result is a new form of culture in which knowledge is seen as fluid and evolving, the personal is both enhanced and refined in relation to the collective, and the ability to manage, negotiate and participate in the world is governed by the play of the imagination. Replete with stories, this is a book that looks at the challenges that our education and learning environments face in a fresh way. **PRAISE FOR A NEW CULTURE OF LEARNING** "A provocative and extremely important new paradigm of a 'culture of learning', appropriate for a world characterized by continual change. This is a must read for anyone interested in the future of education." James J. Duderstadt, President Emeritus, University of Michigan "Thomas and Brown are the John Dewey of the digital age." Cathy Davidson, Professor of Interdisciplinary Studies, Duke University "A New Culture of Learning may provide for the digital media and learning movement what Thomas Paine's Common Sense did for the colonists during the American Revolution- a straightforward, direct explanation of what we are fighting for and what we are fighting against." Henry Jenkins, Provost's Professor, USC "A New Culture of Learning is at once persuasive and optimistic - a combination that is all too rare, but that flows directly from its authors' insights about learning in the digital age. Pearls of wisdom leap from almost every page." Paul Courant, Dean of Libraries, University of Michigan "Brilliant. Insightful. Revolutionary." Marcia Conner, author of *The New Social Learning* "Douglas Thomas and John Seely Brown portray the new world of learning gracefully, vividly, and convincingly." Howard Gardner, Professor, Harvard Graduate School of Education "Thomas and Brown make it clear that education is too often a mechanistic, solo activity delivered to the young. It doesn't have to be that way-learning can be a messy, social, playful, embedded, constant activity. We would do well to listen to their message." Clay Shirky, author of *Cognitive Surplus* "Anyone who fears, as I do, that today's public schools are dangerously close to being irrelevant must read this book. The authors provide a road map-and a lifeline-showing how schools can prosper under the most difficult conditions. It is a welcome departure from all the school bashing." John Merrow, Education Correspondent, PBS NewsHour "American education is at a crossroads. By illuminating how play helps to transform both information networks and experimentation, and how collective inquiry unleashes the power of imagination, *A New Culture of Learning* provides an irresistible path to the future." Joel Myerson, Director, Forum for the Future of Higher Education.

#### **REVIEW OF CHANGING EDUCATION PARADIGMS SIR KEN ROBINSON**

• Over all I feel Lord of the Flies is one of the most terrifying and intriguing books i have ever read. After devastating plane crash, Ralph tries to bring order and work habits into effect. All he can get

from the other boys is fun and games. Although they seemed fun, they soon destroyed the group and caused havoc. Golding set a perfect scene for this type of book, a deserted island with only the jungle as sources of food and shelter. This would be a hard task to manage if your an adult, but he had the oldest boy being around twelve. The boys are forced into separation from the beginning. Even though they stay together in shelters and work, they are separated by their beliefs and are bound to act out on it. Ralph, with Piggy's help, try to keep the group of boys together. No matter what they say, Jack always seems to have something better to say or do. In the end, Golding shows that if people are placed into a society with no rules, nothing good could come of this.

• one of the all time greats. this book is so haunting, and horribly ugly at times, you will feel filthy reading it. some of the actions that the characters do, are startling, but you will find yourself thinking that if you were in the same situation, what would you do? it will challenge all of your misconceptions about this book and others like it.
