REVIEW OF MANUAL UTILIZARE DACIA LOGAN MCV

- This book envelopes you with a richly woven character development driven story. The author's ability to tap into the baseline of all humanity is stunning. The people in this book come alive to engage the reader in all sorts of questions about human nature including death, injustice, despair, poverty and the struggle to find meaning in ordinary everyday life. Despite this weight, it was an uplifting tale.
- 'The Heart Is a Lonely Hunter', published in 1940 when Carson McCullers was just twenty-three, is set in a small Georgia town and tells the story of five isolated and spiritually-frustrated characters. There's Mick Kelly (based on McCullers herself), a young girl who is always writing music in her head and dreaming of travel to foreign lands. Dr. Benedict Copeland is an African-American doctor who struggles to make others of his race see the truth about their plight as he sees it. Jake Blount is a potentially violent drifter who rants about socialism and fruitlessly tries to

inspire the working class to rise up and demand more from their employers. Biff Brannon is the sexually-ambiguous café owner who spends hours on end thinking through his muddled thoughts. And finally, there's John Singer, a deaf-mute who the other four befriend because, as an intelligent and kind man who cannot talk himself, he is a good listener. The story revolves around Singer who, more than just serving as a symbol of their mutual incomprehension through his handicap, acts as an almost God-like figure to the other four. He is to each whatever they want him to be. They all go to him to tell him of their problems as a Christian goes to church to pray. Meanwhile, all he really cares about is his friend, also a deaf-mute, who sits miles away in a hospital bed. His whole existence revolves around periodic pilgrimages to see this friend. The other four pout when he's gone, as one might when God doesn't answer a prayer. I found myself wishing they could seek solace amongst themselves, especially Copeland and Blount who shared similar views. But even when they do intersect, they are unable to fully connect. It is only Singer who can bring them solace. The characters are drawn in a mostly unsympathetic light, except for Singer and Mick who, because of what they are, could almost not be portrayed any other way but sympathetically. Brannon is just too odd; there were times I wondered if he were a pedophile. Blount is too angry to care about. I rooted for Copeland a little bit, but once he and Blount failed to reach a détente, I was left feeling that they weren't interested in compromising their views and thus were really just selfish people, unwilling to live in a world that didn't fit their specific ideas. McCullers's writing is a cross between the Russian realists of the 19th century and Flannery

O'Connor. Like the Russians, she writes to reflect real life. Like O'Connor, she writes about the edges of society. There isn't a traditional plot: the narrative just follows their struggles with isolation and need for self-expression. McCullers has said she based the format of the book on a fugue, which explores various themes through repetition and development. Thus in place of a plot is the examination of these themes to their fullest extent, at which point the book can resolve. The themes she examines are noble themes, some timely (racism, communism), others universal (the need for self-fulfillment, the feeling of isolation from society), which makes this a worthwhile book. Others have written reviews asking why such a 'boring' book without a standard plot or happy ending would be considered a classic. It's the universal themes of the book and the beautiful prose that make it a classic. Life doesn't always end up the way we want it to, nor do the books we read.
