And if you ever before require assistance discovering the excellent publication, our knowledgeable personnel is right here to supply personalized referrals.

REVIEW OF QUESTIONS SOLUTIONS BLANCHARD MACROECONOMICS EUROPEAN PERSPECTIVE

- What a book to cherish, this is one count who simply will not give up on what he believes is right, and what he believes is true justice, this man will do anything, and he is simply the kind of person that is so influential as his hidden self is shown, though the abbe helped him out, it was still mostly to himself. He is way too two-dimensional.Okay, that was a little fast for you, perhaps, but that is basically everything this book is amazing in, and lacking in. But you can't miss either if you want such an age-defying novel. Now, to start, I can't think of any other French novels worthy of being compared to it. Jean--Christophe,

comparable if not better, *The Wandering Jew*, a breath-taking novel that might be the only other French novel that can say is better than this one without hesitation. *Les Miserable*, comparable, and the musketeers, surely rival the count. However, this novel is very singular, and though there are several novels in its class (betrayal then revenge), this novel, in some incredulous way, pushes the rest away (sorry *Kidnapped*, but you'll have to understand), and gives itself more room, more space. It deserves a genre of its own. The length and added strength of this heavy book, both physically and spiritually, gives it more room for flourishes, for explanation, but most of all for perfection. Let's compare this book to a cake, like I normally do, and we'll see that the cake, as I shall refer the book, needs the ingredients. Add a little something not that good, the bad guys fits that perfectly. Now add something unreal, but truly something of your dreams, Edmund Dantes fits that description without hesitation. Now add the creamy stuff, for example, the romance, the ignorance, the jealousy, and the stubbornness. Of course, the last ingredient, the most important thing you need on a cake, or else it's an amateur's work, is the CHERRY (if you eat yours with a cherry)! That, is the Count of Monte Cristo's ace in the hole, it's plot. This book takes a humble old-fashioned genre in fiction to a whole new level, it's got more details, it's got more flavor, it's more of a good cherry. So now you see how expertly Alexandre Dumas picks his ingredients. Having the ingredients is one thing, but how to make it, I don't know how to bake a cake, so I'm just guessing, you would want to notice how the chronicle of Edmund Dante is actually an interesting one if you read it as a map,

instead of reading it like: enemy beats you, face consequences, got a helper/mentor, survive, and get revenge, you read it as something like this, like on a map: face a dangerous cliff, fall, get a life-saver, with an effort climb up from the bottomless pit, seek, goal, go back to dangerous cliff, master it. If you observe it that way, you will see an even more old-fashioned style, brought to another genre, and becomes something completely new. Thus, I conclude by saying that Dumas did something, whether he knew it or not, or did that through another pass with his genius, like that, which is kind of making a cake based on a hypothesis, using a new way with a little bit less risk, and being successful! Dumas did just that, except in literature, it's not so risky (I wouldn't do that for a cake though, one: it's too risky, and two: it might ruin the cherry!). So Dumas successfully maneuvered through the "baking" process. Alas, the cake is made! Now for the critics to make their comments/harsh and absolutely unfair remarks, or criticisms. The book might be better if Alexandre Dumas had just made the character more three dimensional and still be able to master all the harshness in his way. Then, the book will be even more the genius it is, and if Alexandre Dumas doesn't have the genius to do that, then leave it to Romain Rolland, or some other better unknown chef in the near future! And second of all, this should've been done more old-fashioned like, make the lady stay true to Dantes all the story long. If the reader look at it that way, that might be able to leave more space for stories for times gone by than before! Man, not old-fashioned when not supposed to--and old-fashioned, never! Oh, whoever said the above, and especially the last sentence, tell me, I'll

go give him a piece of my mind. The text is wonderful, barely or never any spelling errors, the paper is thick for classics of its size, and it's still able to fit the entire book in one volume. Able to rival the Modern Library Giants or the company that published Harry Potter. Really! So, this review ends. I hope it's not too long for the reader, and I hope you like THIS small cake. Alexandre Dumas was a great writer of many novels, and The Count of Monte Cristo is not his only masterpiece. No doubt people at that time is calling The Count of Monte Cristo a "coming of age--story", like their calling Harry Potter and the Order of the Phoenix right now! He had a lot of

literary friends, and many of my French favorites. So enjoy! And if you've already done that, enjoy again! Read more about his life. Trust me, it'll be worthy of your time. All in all, Alexander was a coming of age author, and he is one of the greatest novelist, etc. right now. His novels are timeless, pure arkenstones, never to be forgotten, leading leaders in literature right now, and have the words: big classics written, engraved/burned all over it. Your favorite, Steven Cong, ADIOS(with a deep, long bow, and a smile after)!

- This is the full version. Great read! If you are going to buy one this is the true book no short cuts.
