REVIEW OF ELECTRONIC DEVICES AND CIRCUIT THEORY 9TH EDITION SOLUTION

- I had been expecting colored illustrations--the looked as though the pictures were copied off my home printer in need of ink.

- The fifth book had excellent plots that made it seem half as long as it was. Some interesting plots are starting to arouse and with the seals on the Dark Ones prison weakening danger is at an all time high. There are many interesting developments that many readers thought would never happen and there is some emotional parts to this book that will ingrave the words into your mind. It looks a little long but it is one great piece of literature.
