### **REVIEW OF ECONOMICS 8TH EDITION JOHN SLOMAN**

- Let me make it clear I have multiple Sun certifications & above book makes clear attempt to get you going on SCBCD. It is not for programmer who is

looking for practice problem solution or who has lot of working experience with EJB. It is best for someone who has Java, JSP, Servlet knowledge & want to start on EJB or has very little exposure to EJB. It will clear your basic knowledge of EJB & get you started on new EJB project. You can also find other books for practical problem solving solution.

(Mastering EJB, Mastering BEA weblogic server it has good practical tips for EJB)

- The cram sheet is great in this book, however, the book itself is too basic, and makes no mention of the topics which you need an understanding of to do the simulations. I really find it hard to believe that the author/authors even wrote the exam.
