REVIEW OF ARENS ELDER BEASLEY AUDITING 11 EDITION AKONTI

- After hearing description of this book on NPR a couple weeks ago, I had a feeling my high school age daughter might like it. On the surface, it might

appear this book is for younger kids. But after reading it, I found it to be for all ages. You do not have to be an English major or Communications major or Journalism major to enjoy this book. It is lots of fun and may conjur up some terms that you have only heard a couple of times in your life. My daughter sends a lot of text messages and has fun with the words she chooses, so this book was for her.

- Michael Levy's book "Invest with a Genius" is a compelling read that provides the reader with an understanding of what true wealth actually means to them, and, how that wealth can be attained in a joyous manner. It clarifies the meaning of the terminology associated with the wealth generation process and helps the reader to understand not only who the Genius is, but also, where the Genius can find the information required to attain that true wealth. The book contains a message for novice and experienced investors alike. It is a truly unique blend of financial advice, poetry and spiritual inspiration in a combination never seen before. In short, if you only purchase one book this year; I would recommend that you make that one purchase "Invest with a Genius".
