REVIEW OF ELEKTRISCHE KRAFTWERKE UND NETZE GERMAN EDITION

- I should have looked at the size of this book in making the selection. Although this

book is beautiful, lovely dust jacket, interesting illustrations, it is almost too big to casually read and is more of a coffee table book. It was bought as a companion to a collectable given as a Christmas present. The entire gift was precious though and the book really made it special.

- What can I say about a classic? Always loved this, and love sharing it now with my children.
