REVIEW OF BRAUN 5493 USER GUIDE

- The author presents a God that fails in His goal to protect Israel from Rome and so He is forced to develop a posture of weakness to try and humiliate those that are strong. His parody is to try and show that there is no God, only mans attempt to bring together actual events alongside the continued presence of God in the world.This book fails as a serious investigation, and as for literary entertainment - making jokes of serious moral issues just plain doesn't work. To name a few problems: The author ignores many events in the Bible and in others suggests subtleties that are clearly out of line; all to suit his needs. He follows a strict literal interpretation ignoring historical and cultural context, and uses the Gospel of John as representative of all Synoptic Gospels. The one point the author makes is repeated throughout the book. It reminds me of a painter that starts off with a bright color and ends up painting the entire canvas in the same color.Jesus Christ's ideas are provocative, because they represent a painful leap that man undertook to accept a further advancement in moral development. In our attempt to understand God it helps to keep in mind the Old Testament words: "My thoughts are not your thoughts". We may find that Jesus' ideas are not so new if we search to find the "still, small voice" of God in the Old Testament.

- I have never been a fan of mysteries... actually, save Sherlock Holmes, I never read them. Once I stumbled upon Sherlock and Watson in my grade ten English class, I knew that I was hooked for life. Very little of my passion for Conan Doyle is based on his ability to write a spine-tingling or comical or dramatic mystery (although he does all with such remarkable precision and depth that I deem him no less than that of a genius) I am basically drawn to Sherlock Holmes as a character. I think he possesses a certain allure.... he contains an almost ethereal and metaphysical presence at times and his powers of deduction are indeed out of this world. However he is extremely flawed, reminding us that even the best most intelligent beings on the earth have moments of misgiving. Sherlock Holmes is a cocaine- addict. He is rude, narcissistic, and incredibly sarcastic. Save himself, and his best friend Watson, he cares not about anyone in the world. He revolves around his world, and cases, not the people behind them, stimulate him. However there are remarkable stories where a bit of a heart shines through and proves him not a total automaton. Watson also casts an hypnotic power on the reader. He is not only a fine narrator (Doyle's exceptional writing capability shining through him) yet, he is also a wonderful, loyal, witty friend and companion to Sherlock. Not at all the unintelligent foil many adaptations make the mistake of intending him to be. He is also flawed, a womanizer and a gambler, and someone who cannot understand his friend. It is Watson that holds us in the stories... we look to him for direction... As a classical literature nut, I strongly feel that everyone should be initiated to the canon. You cannot just read one or two stories.. you must read them all. You will find them so enthralling you may read them all in the span of two weeks (as I did) and return many times after to indulge yet again in the Victorian gas-lit era of 19th Century London.
