REVIEW OF BUSINESS BLUEPRINT FOR SAP ECC 6 0 IMPLEMENTATION AT

- In my opinion, this was the best book in the series by far. I liked how there were kind of different parts to the book - first starting with the three "hags", then moving on to Doli and his problem, and so on. It was almost like a storybook with different stories in it. I especially liked the part where he was staying at that guy's house.(I forget his name. It was Llonio, I beleive.) This book does not have a lot of action, but I like it because it gives us a chance to get to know Taran better.

- well this was for my husban and he really enjoyed this graphic detail expose of all the things in the book had to offer
