## **REVIEW OF A2 LEVEL CHEMISTRY OCR A REVISION A2 LEVEL REVISION S**

- I have been reading Jordan for quite a number of years now and I have got to say that this book is the most dissapointing so far. The first four books moved right along developing the characters, plot and atmosphere. The last ones seem to have become stagnated and distant to the reader. Jordan needs to recapture the movement that he had in the first few books. He seems to have become caught up in metaphysical and political conundrums as opposed to further plot and character development. The lines have been drawn in the novel and it seems that people are sitting back and pondering their signifigance instead of doing anything about them. Though this was still not a bad read Jordan must find a way to make things more dynamic or he will his readership will sharply decline.

- Augustine wrote the City of God to

respond to pagan charges that Rome fell to the barbarians because Christianity had made it soft and removed the gods' (small "g") blessings. Augustine uses devastating (and occasionally tedious) historical reasoning and sheer deductive logic to demolish that view. Those who know little Roman history will have trouble understanding the allusions. There are, however, footnotes for the more obscure references. Thomas Merton, probably the most activist contemplative in the 20th century, surely read the book in the original and felt he could make a more readable translation. This version is almost

painfully literal. He adopts Augustine's Latin style, which tends to be very verbose. Forty word sentences, such as we would "ding" a 9th grader for, are the result. And those are the short ones! Nonetheless, blame the Latin original. Still, shortening the sentences will in many cases lose some of the meaning. Latins thought a lot more rigorously and logically than we. Augustine was their leader. Don't read this non-stop, and have a history of Rome handy, just in case. This is a Christian classic that every educated person should know, but that doesn't mean it's as easy as, say, something by Tim LeHay.
