REVIEW OF A COMPLETE ZENITY DIALOG EXAMPLES 2 LINUX BY EXAMPLES

- I HATE this book! It is so boring! Basiclly, this girl is moving from some island to Conneticut in the 1600's, and the storyline basiclly follows all the random boring things she does day to day, even when there could be action, it is still boring. Only read this if you have trouble falling asleep. There is hardly any magic or anything like that at all, as said by the title.

- A great read and a refreshing change. A swashbuckling, fly by the seat of your pants good time. Pure fiction, pure imagination, pure escapism.
