REVIEW OF M A DUE DILIGENCE ACCENTURE

- Margaret Atwood has a way with words, no one can deny her that. She is so gifted that she can turn a simple story into something that could potentially seem so real. In fact, in the 1980's, when this book was written, this same scenario could have happened. I believe that Atwood has written a precautionary tale for all of us who may not have as much of a clue as to everything going on. In

the Republic of Gilead, a new form of government takes over, which is basically the combination of church and state. Over the years, since the Puritans came here, there has been an ongoing battle about whether God really has a place in our government or not. I really believe he does not, I am not an atheist in any way, I'm just saying his ideals should have no say in how we run our country. I believe that Margaret Atwood helped, in a miniscule way, to potentially stop this from happening to the United States in reality. Just think if we had handmaids, you yourself (if you're a woman) would probably be one, because I'm guessing if you're on this site you're probably not in your older years, looking

for a child, and you probably aren't super well off in the financial department (I could be wrong), but still, just think for a moment, aren't you glad this story is around? I for one am, and I'm glad I chose to read it. Overall it is a great story. If you have any trouble understanding it or are just really interested, rent the movie, it helps, trust me!

- A chilling and fantastic read, Atwood somehow manages to bring a whole new world onto the page. This book is one of the most haunting I have read, if only because you are entering the mind of this 'Puppet on a String' This is a fantastic insight into how the world could become in the future
