REVIEW OF PRINCIPLES OF PHYSICS 9TH EDITION AMAZON

- This didn't cover as many insect pictures as I thought it would. Was a gift for great grandson and I thought it would show pictures of more insects than it did.

- Terrible. The guy is in love with his "beach buggy", which to everyone else translates as big trucks like 4 X 4 Ford Broncos, GM Suburbans, and the like, and certainly not the more aptly suitable dune buggy-like vehicles, given it's about fishing on the Cape. Tells of his beloved "beach buggies" take a significant part of his book. The author keeps complaining over and over, from beach regulations against RVs and trucks, err... "beach buggies" to fishing regulations, and he makes it clear very early that he's aiming at making surfcasting a profitable business. If, to you, surfcasting is a sport, if surfcasting means a unique opportunity to be closer to Nature, having the sea before you, dunes behind, over a sunset mean a lot to you, or if you're looking simply for

fishing stories, or tricks of the trade, or funny or humorous tales (as it happens to almost anyone!), or if you were looking for a book which would remind of your own fishing trips, you won't find that in this book. The author relates his "surfcasting" experience from the '60s to the late '80s, those golden years of surfcasting, before fish stocks collapsed. I was on the Cape back then, and recalling my own surfcasting experience, I can

testify that anyone who had his first 30-pounder bluefish on a 12-pound test line could tell you in vivid colours his experience to land that fish. The title and the photo on the cover lead you believe that is what you'll find in his book. What I've found is an angry man, his trucks, \$\$\$ and that he couldn't care less about Cape Cod natural beauty, or... the joy of surfcasting.
