And if you ever need aid discovering the excellent book, our experienced team is right here to give customized referrals.

## REVIEW OF AMAZING MAZES

- Fromkin's take on the roots of the current Middle Eastern conflict, aptly described by previous reviewers, is both formidable and sketchy. His approach is to tack a series of essays about

individuals and events together in a loose framework that will be tremendously satisfying to the intuitive who likes to draw his or her own conclusions, but will be mildly disorienting to those who like to have perspectives made more directly clear. It is an easy read if one takes it one step at a time, but it leaves one with the difficult task of integrating all of the information that Fromkin provides. Within the essays, Fromkin is somewhat inconsistent in his approach. At times he provides highly satisfying direct reference to original source material and at other times he draws undocumented conclusions about events which could potentially be based on the opinion of some unknown source or perhaps his own. So, while this is a tremendously satisfying book, I am still left with questions regarding the validity of Fromkin's basic thesis -- but his fine treatment of this topic leaves me with a pressing interest in reading more, which is perhaps the highest complement I can pay.

- I particularly like Miss Bronte's use of words to describe natural scenes. I refer to her descriptions of outdoor scenes. However I did become bored with her lengthy and imaginary conversations with her admirers which accounts for the low rating. I have seen this book described as an auto biography. That cannot be so. Perhaps the early part was written from her actual experiences but this book was finished long before she was married to the curate, not Rochester. I am beginning to realize that this was in fact the Victorian style of writing.
