REVIEW OF SONI GUPTA AND BHATNAGAR POWER SYSTEM PDF FREE DOWNLOAD

• The Giver is one of the best books I have ever read. The Giver is about a boy named Jonas, and his family. It is about how he is going to become the nexted Receiver of Memory the person that helps him become this is the Giver. This is the most honored position in the community. Through his "training" he starts to experience colors, history (memories from the past), animals, various feelings etc ;through this he is experience pain, hurt, and awful memories from the past that the Giver is giving him. And then some things happened...but i am not going to tell you.In the Giver, the community is not like the one today. In the Giver, the community cannot choose what kind of job they want, the master chooses. When a child is born the mom does not have it, a women does it for them. Then the Master gets to choose the name. So I guess you can say they are as one. They are not different from one another, meaning they all have the same house, most of them have to same personality.I can see why this book can be banned, but I do not think that this book should be banned. This is because the Giver shows a likely lesson. When you want to act like someone because they are popular, think for one second do you really want to be? The book shows that when you act as one you are not experiencing "your life". Do you want someone control you, tell you what memories you can have, tell you what you can do? When you are in a "group" and they tell you what you can wear that day, have a list for who can sit at their table, tell you what your nickname is, do you really want to be in their group? I think that every kid should read this book, and next time a person say to me this is your nickname, I will go back to the Giver, and say no thanks I can make up my own.

• I read this book a year ago and found it amazing. It is about a 12 year old boy named Jonas. He lives in a community where everything is decided by the goverment. There is no free will or choice or color. When Jonas turns 12, he is given the job to be a reciever of memories. A way to think of him is an encyclopedia of memories, feelings, and pain(like sunburn) that is never used. When he is given his job, he learns by the end of the book that his "perfect" world is not that at all. The ceromony of releasing, which at first is said to be expelation, is really fatal injection done to people ranging from the age of newborn to elderly. I don't want to ruin thending for anyone, so I won't.
