This book explains the ideas behind the chess openings. It is not a book that

gives long columns of moves with an evaluation at the end. Rather, this book attempts to explain and teach the different opening systems.

Rare Ideas for Black Ishi Press

Every chess player needs to decide which openings he is going to play. But where do you start? The risk of drowning in the turbulent sea of opening theory is only too real for beginning amateurs. Often your goals and ambitions will be misguided. If you are trying to win in 20 moves, copy what's in fashion among top-GM's or memorize variations, you are wasting your time. Most likely you will never get to play your 'preparation' and end up aimlessly switching from one opening to the other. Experienced French chess trainer Vincent Moret provides a complete, ready-to-go chess

opening repertoire for White with a sound set of lines that do not outdate rapidly, do not require memorization and are easy to digest for beginners and post-beginners. To show the typical plans and the underlying ideas in the various lines of his repertoire, Moret not only selected games of grandmasters. He mainly uses games of young, improving players to highlight the errors they tend to make. With many exercises to test your understanding of the ideas behind the repertoire.

Modern Chess Openings Cardoza Publishing

Chess openings are the most important part of every novices journey and the most fun. The most common and

important openings are presented in an easy-to-use format with large, frequent diagrams showing every position along with clear explanations of the goals, objectives, and concepts behind the moves. No other book so perfectly presents the openings in a manner so easy to learn and use. 176 pages.

Mastering the Chess Openings

Unconventional Approaches to M

Weird and wacky or safe and sound? The Sokolsky Opening is both. Sometimes the play is truly deviant both sides initial few moves all on the a-b-c files and the first pieces exchanged a pair of rooks at other times 1.b4 becomes merely a roundabout route to a respectable English, Reti, King s Indian or reversed French position. This book, packed with fresh analysis and 95 illustrative games,

clearly shows that White can look forward to a rewarding albeit complex or unusual struggle. There is no need to dwell on the usual platitudes applied interchangeably to unorthodox openings, like a good psychological choice to get your opponent into unfamiliar territory. The Sokolsky, otherwise known as the Orangutan or the Polish Attack, is an independent opening whose merits are due to chess analysis not psychoanalysis. 1.b4 is sound, the refutations don't work, assessments are disputed, printed theory till now has been inadequate, White's aims are clear, and the practitioners have been world class. So what are you waiting for? Get out there and hit your opponents with the b-pawn!

Publishing

The first one-volume book that covers all variations The English Opening (1.c4) is a popular choice at both club and master level, because it is a chess opening that suits all styles. Elite players as diverse as Magnus Carlsen, Fabiano Caruana and Vishy Anand include it in their repertoire. As White you can play aggressively or opt for a more strategic approach, depending on what kind of middlegame positions you are looking for. For a club player who wants to reap the benefits of this multipurpose opening, understanding is much more important than deep theoretical knowledge. The Full English Opening teaches the fundamentals and is the first one-volume book that covers all major variations. Carsten Hansen dedicates special

attention to the transition into the early middlegame. You will learn how to identify specific plans, determine your strategic goals and find positional and tactical targets. Supported by examples and exercises, you will be able to enjoy the greatest asset of the English Opening: its versatility. It will serve you well in any mood, against any type of opponent, in any tournament situation.

The Complete Manual with Theory, Fundamentals and Strategies for Beginners. Build Your Repertoire with Explained White and Blacks' Openings and Win the Game Gambit

Chess Openings Can Be Simple! Because of the sheer volume of variations, possible transpositions and ever-changing theory, chess openings can be overwhelming ♠ even intimidating. This

book is an introduction to understanding and playing chess openings. The author, Danish Master Carsten Hansen, stresses opening play based on comprehending opening principles as well as useful, fundamental knowledge. With an overview of all the most important opening variations, examples of good and bad opening play, opening traps and problems to solve, chess openings and its major principles are covered thoroughly. Many games are lost as a result of a player's poor grasp of even the most basic principles of opening play. This book will help you enhance your understanding and give you guidelines on how to best study and play chess openings, reaching good, playable middlegame positions.

MCO-15 New In Chess

Every chess player needs to decide which openings he or she is going to play. But where do you start? The risk of drowning in the turbulent sea of chess opening theory is only too real for beginning amateurs. Often your goals and ambitions will be misguided. In this book, we will guide you through simple steps to start the most successful chess match! This book covers 30 of the most popular chess openings in history and for each, it provides the following: - Move by move analysis of each opening - Chess diagrams to illustrate every single move and give you a visual representation of each position on the board - A list of advantages and disadvantages of each opening (for both players with white and black pieces) - MOST IMPORTANTLY: A move by move analysis of a

grandmaster-level chess game where each opening was used. It can be said that this book will very simply teach you best opening practices and go over the ones you are most likely to encounter when playing the game. It will also give you all the information you need in order to know which opening to play under which circumstances. Furthermore, it will help you develop your own playing style based on sound openings that have been analyzed and tested for centuries by the brightest minds to ever play the game. Besides, this book will also show you examples of opening theory put in practice by chess grandmasters throughout history which will help you understand the reasoning and analysis behind each move. Stay excited. Have fun playing chess!

Theory and Practice John Wiley & Sons

* The perfect survival guide to the chess openings * All openings covered * Detailed verbal explanations of plans for both sides * Up-to-date and featuring many tips and recommendations * Insights into the 'character' of each opening * Written by one of the world's foremost opening experts The first moves of a chess game define the nature of the whole struggle, as both players stake their claim to the critical squares and start to develop their plans. It is essential to play purposefully and to avoid falling into traps or reaching a position that you don't understand. This is not a book that provides masses of variations to memorize. Paul van der Sterren instead offers a wealth of ideas and explanation, together with the basic

variations of each and every opening. This knowledge will equip players to succeed in the opening up to good club level, and provide a superb grounding in opening play on which to build a more sophisticated repertoire. The strategies he explains will, unlike ever-changing chess opening theory, remain valid as long as chess is played, and so the time spent studying this book will be rewarded many times over.

REVIEW OF CHESS OPENINGS THEORY PRACTICE

- This brings me back to the John Grisham that I fell in love with reading when I first read *A Time to Kill*. Not only did I love the story and the twists thrown

in to keep my guessing, but I just loved the overall feel of the book itself. I felt like Grisham's writing was almost fluid, his character development being some of the best I can remember from any of his books. At the end when Callie's family was gathered around her bed at the hospital, I felt like I was standing there in the room with them, and that I would recognize any of them on the street if I were to pass them. Overall, this book was just fun to read!

- I'm normally not the type to go for Irving/Grisham/Clancy novels, but stranded in the Raleigh/Durham airport, I decided to venture into new territory. The review blurbs on the book from the NYTimes and others all glowed that this

was Grisham's best work ever. It was "atmospheric", "tonal", approaching true "literature". I was sold. I quickly finished the novel and set it down with a sigh of relief--relief that I'd finished the damn thing and relief that I had never subjected myself to other Grisham works. This novel was light on anything of legal interest, lacking in interesting suspense, and of dubious effect when it came to the verisimilitude of the two main protagonists. There was nothing wrong, per se, with the novel; but by the end I was completely unmoved. For those who say that this novel is great despite lacking in legal suspense, fine; but if you want a good literary narrative than go read a real novel.
