REVIEW OF NCLEX RN EXAM CRAM 5TH EDITION

- I highly recommend this book to anyone who feels that male sexuality, as it is typically expressed today, needs improving. While this book is directed at men, it should be read by women to help them help their spouses, and it should be used by parents to help them guide their sons' development. One reader lamented the lack of scientific method, however I found myself in nearly complete agreement with everything the author wrote. The experiences of my life certainly conformed with the author's conclusions. Sometimes a lifetime of experience is much more informative than science. The author shows how male sexuality has become warped and then suggests ways to achieve healthy sexuality. If you follow his suggestions, you will have a much happier marriage and will raise much healthier sons.
