The old masters of dealt only with the static features of the positional rules of chess. But these are insufficient to explain the basics of chess. The problem is that chess, like in other sciences, has undergone a dynamic revolution, but chess literature doesn't yet reflect it. In this major work Aagaard accessibly explains the rules of attack (the exploitation of a dynamic advantage), balanced between understandable examples, and deep analysis. Five years in the making, this book deals with weak kings, sacrifices, various minor attacking themes, intuitive sacrifices, opposite castling, modern king hunts, and enduring initiative.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by

America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

REVIEW OF KAWASAKI VULCAN VOYAGER OWNERS MANUAL

- 'The Giver' has been my favorite book ever since 8th grade. This is the type of book that really makes you wonder about the world. Will we live like the Jetson's in the future? Will we still live on earth? Will there be life on other planets? How will our world be run? All these questions run through

my mind while reading a book like this. 'The Giver' is an excellent book and is also a very easy read. I read this book when I was in 8th grade and I loved it, and now that I have read it again as a senior I still love it!!

- This book, The Giver, is a pretty ok book I guess. In some parts you get confused because Lois Lowry didnt really explain it that well. In some chapters it made me want to think ahead of what was going to happen next. In the beginning the book was pretty boring. However it was ok later on. This book makes you think of your own pictures in your head. Some things in the book shocked me like Jonas recieved memories and the punishment Babies and the Old's got. This book has very good vocabulary words, that some of them you have to look up while your reading (unless you know the word) i recomened this book for kids starting from the age 12. Even so in that age, you will get confused a little. Lowry says something doesnt exist like war and the weapons, but later on it says that Asher and other friends were playing with imaginary "WEAPONS". Overall this book is very interesting...
