REVIEW OF GRADE 9 FINAL EXAM MATHS MEMO NWDATA

- This book is not for the beginner to start learning the product. However, if you are just quite familiar with them, this one is the best summarized book. You will find out that there are many things you don't really know, then you go back to try, you will know. Tell you in more detail, I chose TCP/IP and Proxy as my electives. TCP/IP is okay, but Proxy is not that easy, after you read the book, you should try the server again. Anyway, I have to say loudly that I can pass MCSE in 2 weeks because of this ELEPHANT book and its companion Core In Nutshell. Don't forget to buy both of them, Core in Nutshell and Elective in Nutshell. GOOD BOOK DOES NOT NEEDED TO BE THICK. If it's possible, could the writer write MCSD in Nutshell, please?

- I first heard about the Abayudaya in 1996, through the work of "Kulanu," an organization working in support of isolated and marginalized Jewish community around the world. In September 2003, Rachel Namudosi Keki, a 21-year-old Abayudaya woman visited our community. It was a remarkable event. Rachel highly recommends this book (which includes many pictures of her father, J.J. Keki, and a few of Rachel as well, although she is not identified by name) as the best available resource for understanding the history, reality, and day-to-day life of the Abayudaya. The audio CD is a vital part of that understanding. (More Abayudaya music is available on the Kulanu-produced CD, "Shalom Everybody Everywhere;" Rachel is the soloist on these recordings, mostly recorded when she was around ten years old.) Among the many unexpected revelations in this visually stunning book is the fact that J.J. Keki was visiting America in the late summer of 2001, and witnessed the first plane striking the World Trade Centers on September 11th. If you review film footage from that day, you can catch a glimpse of a tall black man wearing a kippah among those running from the scene.
