REVIEW OF LONG MILE HOME BOSTON UNDER ATTACK THE CITY'S COURAGEOUS RECOVERY AND EPIC HUNT FOR JUSTICE SCOTT HELMAN

- Possibly Orwell's greatest work, this was published in 1949 and served (and still serves) as a great warning for what might happen if we aren't careful enough. The year is 1984 and the setting is in London, which is part of Airstrip One, which is part of one of the three world superpowers, Oceania. Oceania was formed on the principles of Ingsoc (English Socialism) and is governed by a group of wealthy people and the imaginary "Big Brother" who is a figure designed by the Party for the people to look up to as their protector. Oceania, and London is particular, is not an ideal place to live at all. Only the Inner Party, which make up a small percent of the population, have enough food to eat and live in considerable luxury. The Outer Party, which are a group of people that hold many of the jobs that keep the Party going, are forced to live under the microscope of the Party and live in relative poverty. While they have it better off than the low class (Proles) they do not have the freedom that the Proles have, and they spend all their time either working or attending Party functions. It is not considered good for a Party member to be doing anything alone besides sleeping and things of that sort. Part 1 gives us the basics of the book. It describes Outer Party member Winston Smith, who is the main character of the book. In Part One, Smith finds himself and realizes how much he hates the Party. In Part 2, Winston meets another Outer Party member named Julia. Julia shares Winston's hatred of the Party and the two both consider themselves to be criminals and they know that they will eventually be destroyed by the Party. However, they agree to dodge the Party as long as possible. At the end of Part 2, Winston is captured by the Party. Part 3 is about the Party's efforts to change Winston by means of torture and make him a loyal servant. I won't go into deep detail because I don't want to ruin the book :) 1984 is a great novel. Maybe harder to understand and more complex than Animal Farm, but you probably get a little more out of it. If you want a complex tale about what we could be headed for, read 1984. If you want something simpler, more lighthearted, and less time consuming read Animal Farm. Both books are great in their own right.

- I liked how true this book was, even though it was written 20 years before 1984. Most of the futuristic devices that Orwell was talking about came true. Such as, the security cameras and trackers in the airport. Also, the government was prying into your personal information. I believe that the society was high tech and the government had more laws to look at a person's information.

Soon, the governmnet will be able to track anybody anywhere. Also, they will be able to read a person's thoughts and ideas. If a person wanted to revolt against the government they will be able to stop him/her before they can overthrow the government.
