REVIEW OF BEFORE THE BIG BANG PREHISTORY OF OUR UNIVERSE BRIAN CLEGG

- I LOVE John Grisham. I have read almost all his books, but this one.... I couldn't even read beyond the first hundred pages. It is so slow, a lot of narrative. It looks more like a history book than a thriller one. I didn't like at all.
- I often wonder if John Grisham didn't write such a good first 3 books, would he be nearly as popular as he is now. He is a good writer, his books flow, they are easy to read, but they just end....I often find myself saying, a book was way too long, I find his too short....This was a good story, well developed, that ended in 2 pages....Maybe that is what keeps

his books alive, they are all fast paced and build, I just wish the endings would

develop also. I liked The Last Juror, it was good, but I wonder, could it have been great?
