This publication is one of a series of handbooks prepared by the United Nations Statistics Division (UNSD) to help countries, particularly developing countries, implement the 1993 system of national accounts (SNA). It attempts to cover the conceptual and practical aspects of linking business accounts to national accounts through countries' experiences. The handbook aims to provide a general guide to business accounts and the possibility of linking items in them to SNA concepts allowing for local rules and regulations. It cannot provide a set of concrete and detailed international guidelines due to the diversity of business account standards among countries and the extent to which business accounts are made available to statisticians. REVIEW OF PRINCIPLES OF FINANCIAL ACCOUNTING ACC111 SIMPLIFIED

- I had never read any of the foundation novels and yet, considered myself a science fiction fan. Im glad to say i have corrected this glaring error.
- I certainly do not sound quite as intellectual as other people who have reviewed this novel. All I have to say is that I found this book extremely interesting and thrilling. When my teacher recommended this book to me, I was skeptical, however, Foundation turned out to be one of the best books I ever read and I can't wait to read the other ones. Psychohistory and Hari Seldon rock! Whoever doesn't read this book is missing out on one of the best ever.
