REVIEW OF SOFTWARE USER GUIDE SAMPLES

- This book is very well written. It had me on the edge of my seat the whole time. Amazing. Read the next book as soon as it comes out!
- ok, i understand that it seems similar to alot of other fantasy books, but its the unique twists that make it such a good book.

what i mean is stuff like the shades, razac and urgals. i am so sick of hearing people say that just because paolini was a teenager when he wrote eragon means that any teen can write a book and get it published. and then they dont like him simply out of spite. i first read eragon when i was ten, and six years later this is still my favorite series, and i do believe it always will be. please, if you dont like a book, dont bash it. if you must, just keep it short, like it wasnt what you expected, or there some parts that confused you. not everyone has the talent to write such good books. thankfully Christopher Paolini does.
