REVIEW OF CAMPANIA E BASILICATA 1

- Oooh, I loved reading this book! It furnished me a most enjoyable summer, one where I had the luxury of putzing around while learning something worthwhile, more or less painlessly. I went on to read several more books on statistics (alas, none anywhere nearly as good as this.)The publisher should (hint, hint) talk Mr. Moroney into the task or find a qualified author to revise the text and bring it up to date. For example, I'd like to see a book like this discuss meta-analysis of statistical studies. Then one would find out if this technique was a breakthrough or rubbish.
- I love this book. This is the best book I have ever read. I love the translation. Haven't read another version but compared them in the store and this had the best prose, hands down. Awesome, you will love this.
