#### REVIEW OF TOSHIBA TEC B 452 MANUAL

• While reading "How to Get a Six-Figure Cash Advance," by Susan Harrow, I came across a one-page example of pitch letter on "Men Are Pigs, But We Love Bacon."The title alone evokes such curiosity and expectation that I just had to get a copy of this book.And this book kept me laughing and saying, "Oh really? If this is the case for gay men, I wonder about straight men." "Men Are Pigs, But We Love Bacon," is a compilation of Alvear's letters and advice from his advice column, written for gay men.He asserts that he writes this column "the way men talk about sex - brutally, with a sense of entitlement, and a breathtaking gift for the gratuitous insult."One of the many hilarious statements that Alvear makes in this book is, "We're the only group I know that can make the pursuit of plain old dog-yard scrumping sound like some noble, spiritual quest for a better life. ... Both gay men and straight men are afraid to admit we want to have a much sex with as many people as we can. Where we diverge is in the strategies we use to cover up our inconvenient natures. Straight men pretend they don't really feel that way; gay men admit they feel that way but for righteous reasons."I tested the interest of this topic on both straight men and straight women, by saying things like, "Have you heard of the empty toilet paper roll test?" And by reading this book in public - the yellow cover with large black letters garnered a great deal of attention.This book intrigues the straight and the gay. Alvear says that gay men are more obsessed with their penis size than straight men. And for those who aren't sure what size "sock" to use on their penis, Alvear advises sticking it in an empty toilet paper roll - if it doesn't go over the length, the man is not extra large.From the first page to the last, I loudly laughed, and learned a great deal about the psychological and medical issues of men (gay and straight) that despite the in-your-face language used by Alvear, this book is an excellent one for readers from age 18 and up, no matter your persuasion.

• Answer: you reduce the game descriptions to the following formula: Date of game, attendance, weather, records of the two teams, list of opponents beaten, list of opponents lost to or tied, a brief synopsis of scoring drives with a few players' names mentioned, cite the turnovers, and give the final score. Repeat a hundred and six times and then publish. Illustrate these chapters with small black and white photographs of the two teams playing (for the most part) other games on their schedule: here's a picture from '76 Tech-USC; here's one from the '76 Georgia-Vanderbilt game (WHY?). Offer no insights, don't quote players or coaches or fans, just the facts. Griffin barely even mentions the wildly controversial call that decided the 1999 game, a call that got national media attention and resulted in the crew being disciplined! And the huge brawl during the 1993 game, which was front-page news the next day, gets no mention at all. What a disappointment: the author, whose lack of ties to (or interest in) either school is pretty apparent, simply read library microfilm and phoned in this lifeless attempt at a Father's Day gift. And may I add in closing that Tech lies and cheats?
