#### **REVIEW OF SIEMENS LOGO USB PC CABLE DRIVER INSTALLATION GUIDE**

- This fun filled adventure is one of the classic sci-fi adventures. Written in 1958, this story is timeless. It carries with it the hopes for future space exploration, and advances in technology. Like many sci-fi greats, Heinlein knows how to tell a story and keep you captivated from beginning to end. His characters are real, likable and full of emotions. Kip is his main character in this story. He is a very likable young man that every one can relate to. His hopes for the future are grand, and maybe unattainable, but that does not discourage him from pursuing them non the less. Peewee is everybody's little sister, lovable, and in a hurry to grow up, but some times a pest. Their adventure in space will keep you and the edge of your seat, from beginning to end. I loved it when I was 15, and still love it at 37.

- It is a very exciting fast moving book. It has very interesting characters. I think it is worth reading.
