REVIEW OF ENGINEERING MECHANICS BY FERDIN SINGER 2ND EDITION

- This isn't a classic or any type of great literary work, but it's definately worth reading. Embra gets tiresome (by the 6th chapter I was hoping she'd get killed off) but Craer and Hawkril are so amusing they more than make up for her. Sarasper doesn't _have_ a noticable personality. If you want an amazing, groundbreaking book, go re-read Tolkien. This is more the essentially meaningless but very enjoyable read.

- I never thought of used book is in this condition. Its looks like a new book. I am vary happy with book. I hope in future, I will get book in this condition only.I have given 5 starts becoss of the book condition.
