REVIEW OF EDGE TOURING GARMIN

- "Admiral of the Ocean Sea", Samuel Morison's 1942 Pulitzer Prize winning biography of Christopher Columbus, is still considered by many to be the best there is. Morison spent 2 years on a sailboat re-tracing Columbus' voyages bringing a first hand immediacy and perspective that gives it unusual authority on all technical aspects of sailing and navigation. In addition Morison was a Harvard history professor whose research of the written record is impeccable. Even before Columbus died in the early 16th century, there have been countless controversies and debates about many aspects of his life and voyages. Into this maelstrom of legend, myth and folklore - like the discover he writes about - Morison brings order, calm and reliable passage for one of the most fascinating and mythological figures of World History.

- I am not as enamored of these Russian short stories as some of the other reviewers are. The last story about Bulba depicted Jews in a very demeaning way, and you can see the stereotypes of the Eastern European Jew written into a very interesting story. Gogol was one of the great Russian writers, but the inclusion of this shows him to be an anti-Semite. Otherwise the stories are interesting and humorous of the Tsarist times. The story of the Russian bureaucrat pretending to be Fernando VIII of Spain starts out this book and is by far the best. The others are silly stories, and the last one about Bulba shows the Polish occupation of the Ukraine in medieval times. The first and last stories are by far the best, if you can stomach the anti-Semite tone in the latter story. Overall, an interesting and slightly humorous read. This book gives you a picture of Russia in the times of the Tsar.
