## **REVIEW OF ANALYTIC TRIGONOMETRY WITH APPLICATIONS 11TH EDITION**

- Cornwell's work never stops amazing me. One would think - a battle is a battle. However, this author pulls you on the ship, down into the hold, on the deck, up the tall sails, and into the arms of a lover. He fills the reader with knowledge of the times we would

otherwise never possess.

- I've marched with Sharpe since the very beginning. I've delighted in his exploits with Harper in Portugal, Spain, France, Belgium, and South America; I sweated with young Sharpe along the dust and elephant-dunged trails of India. Now, we have Sharpe all at sea with a beautiful woman, a blackguard or two, enough brio for a battalion of Bonds, and one of the most decisive and important sea-battles in history. What more could a Sharpe fan want?
