REVIEW OF MANUAL DE VISUAL FOXPRO 60

- This book was fun and interesting. I particularly enjoyed the attention "Native Tongues" paid to some Asian, African, and Native American languages. If you looking for a non-complicated book about human languages, then this is the right book for you.

- Ok, having now finished the book, I am still giving it two stars. I still didn't know any of the characters in this book, but it leaves off with a major cliffhanger. The descriptions in this book are many and varied, the technical stuff is very technical and the descriptions about the people and their culture is very skimpy, especially about the Blood. I would've like to known more about this culture and what makes it tick, and why the Federation is out there in this area.Thanks for reading!~Pandora
