## REVIEW OF MAKING MUSIC WITH GARAGEBAND AND MIXCRAFT

- In 1951, 10-year-old Beverly Potts mysteriously disappeared as she walked a couple of blocks from the neighborhood playground to her suburban home on Cleveland's West Side. Despite a vaudeville performance having drawn 1000 people to the park, including a number of Beverly's friends and neighbors, and despite the houses in her "safe" family-oriented neighborhood being close together and close to the street, nobody saw or heard Beverly disappear. Despite a massive police search and investigation, many leads, numerous "confessions" and intensive press coverage that continued until the Sam Sheppard murder case knocked it off the local front pages, no trace of Beverly was ever found. No abductor was ever identified, and over 60 years later what happened to her remains a mystery. Through meticulous research, author Badal has preserved a chapter of Cleveland history that was fading into the past. I was born on the West Side of Cleveland in 1963, grew up in the suburb next to Beverly Potts' hometown, and yet never heard of her, although my mother, who had moved to the area shortly before I was born, remembers being told about the case by the neighbors. I found it interesting how the daily life of kids in the summer in the early 50s wasn't all that different from what I remember about growing up in the 60s in that area. Kids played with the neighbor kids in yards or in each others' homes, rode their bikes to the park and hung out all day in a group, ran errands to the store for their parents, and, barring special permission, were expected to return home by a set time, usually dinner hour or when the sun started to go down. Apparently, when Beverly's disappearance became big news, children all over Cleveland suddenly found themselves watched like hawks by their parents and not allowed to go out of the house and roam around as freely, but as memories fade, kids return to their old ways. So much for the folks who claim that their childhoods were so safe and they played outside all day without a care in the world. As the story of Beverly (and of two other little girls who were similarly abducted around the same time in Cleveland, recounted as background in the book) shows, it has always been dangerous to be a kid - we just didn't hear so much about it on the national news or Nancy Grace back before children started appearing on milk cartons. Even the author recounts a personal story of how he was nearly snatched by strange men in a car from his home neighborhood of Shaker Heights when he was a kid there in the 50s. Shaker Heights in those days was a well-to-do area that likely would have been considered even safer than Beverly's more blue-collar suburb of West Park. However, despite the obvious effort put into its research, the book works less well as a true crime read. Its biggest problem is that no answers are ever given as to what happened to Beverly (other than that she was probably killed), and no suspect

emerges as being particularly likely, or even more likely than the plethora of other suspects. Various people confess to the crime over the years, most of them not very credibly. The handful that either gave a credible confession or seemed otherwise to be strong possibilities are either dropped from the investigation due to lack of evidence, or dropped for unclear reasons that the existing police files don't explain. The book also reports on a huge number of leads by well-meaning members of the public as well as psychics, crackpots, abused women trying to frame their ex-husbands, and kids making up stories to get attention. (One imagines a modern broadcast of "America's Most Wanted" or "Nancy Grace" bringing all of the same types out of the woodwork and the burden on the investigators to sort through hundreds of tales in hopes of finding the truth.) In the end, the Beverly story goes nowhere - not resolved at all - her parents die and her sister moves away. The story seems unfinished, and perhaps will always be that way. But without more, such as an arrest or even a strong suspect, you simply don't have a compelling true crime book. For that reason, I don't

recommend it to readers who are looking for that. The book is still worth a read if you're interested in Cleveland history or in how the police and community handled a high-profile missing child investigation in the early 50s.

- "Hollow independence"? I'll take it any day over "empty marriage"...been there, done that. Thank God for divorce. And a biological clock ticking loudly at...30?? Um, this is the 21st century. No gal's "clock" should start ticking loudly enough for her to notice until several years beyond 30. Basically, Emily is a caricature written by a woman who thinks dumbing down her prose and staying shallow are sure-fire ways to get published and sell books. Maybe she's right. I don't like taking this kind of insulting drivel from another woman, though. "No sex equals calls"...well, perhaps from men who are equally invested in game playing as the one dimensional scheming women in Gerlach's book. Don't buy the book. It will only encourage her to right more garbage like this.
