REVIEW OF DIGITAL SIGNAL PROCESSING PROAKIS 3RD EDITION SOLUTION MANUAL

- I came to this book believing that "Pappy" Boyington was a pugnacious drunken spendthrift that the Marine Corps was anxious to be rid of, and that he may not have been the leading Marine Corps ace of World War II as he was thought to be. From what I had read, Boyington spent most of his time on the ground as a member of the

American Volunteer Group (AVG), better known as "The Flying Tigers," and was only credited with shooting down 3 Japanese planes (although he claimed six). I also understood that Boyington left the AVG early and was the only man ever dishonorably discharged from that organization. In addition, I questioned his account of the final action in which he was shot down, another unseen action in which he claimed two more enemy planes. After reading this book, however, I'm not quite so sure. In it, Boyington readily admits that he was a "drunk" and a "bum," and he allows as how he liked to wrestle a bit. As to his claim of six enemy planes while with the AVG, his explanation is easily believable. As he explains it: In order to get credit for a kill with the AVG you almost had to bring your victim back to the landing field in your teeth and drop it where everyone could see it, whereas the majority of his kills had been 75 to 100 miles away, most times behind enemy lines. In addition, and most likely with some merit, he states that the records of his actions at Rangoon were lost when that city fell to the Japanese. With regard to his being "dishonorably discharged" from the AVG, Boyington acknowledges that he left shortly before the remaining volunteers were forced/coerced into the Army Air Corps as 2nd lieutenants. But once again his explanation rings true. Boyington correctly states that he wasn't the only member of the AVG to leave the group, that the reason he left was because he wanted to return to the Marine Corps rather than be conscripted into the Army, and that it was ridiculous to claim that you could "dishonorably discharge" someone from a civilian volunteer organization. As to his account of his final, once again unseen action, Boyington's account is so vivid as to be

easily believable. Having read a number of books which touched upon the life and times of Gregory "Pappy" Boyington before reading this one, I had already formed a somewhat negative impression of the man. After reading this book, however, I have concluded that it is one thing to view a man from the outside, especially from a distance in time, recounting his every fault and failure, but it is quite another thing to view that same man from the inside looking out. So, although much about Boyington is and will always remain a mystery, he certainly was an American hero and he certainly could tell an interesting, believable, and highly entertaining tale. And this is one of them. But don't stop

reading too early. You certainly won't want to miss the chapters in which he recounts his nineteen months as a "captive" of the Japanese. To me, that's the best part of the book. Six stars anyone?

- As the author of *Don't Wait Get in S.H.A.P.E. - Drop Fat Fast and Get Fit Quick* this book was one of many that inspired me to write my book. One of the best all time books ever. Suffering does have a meaning in life and it does serve a purpose. This book shows us how we can convert momentary suffering into meaningful explanations. There is hope. There is always hope and this book is the road out of suffering and into meaning.
