REVIEW OF ICSE SOLVED PAPERS LAST 10 YEAR

- John Christopher's "Tripods" trilogy is simply the purest science fiction you can get your hands on. Fremantle and the BBC made a superior adaptation of it which aired on public TV in the U.S. and then vanished. (PAL format DVD only.) I've read most everybody's sci-fi books, but I can't honestly recommend another author any higher. This book (part 2 of the trilogy) really goes the distance.

- Pay no mind to a previous reviewer who questioned the book's accuracy. At the time of the Revolutionary War, there was NO Vermont, therefore making it quite impossible to have a battle there. Present day Vermont was actually NY - thus the index. Don't base assumptions on the book off of that review. I have found little to counter in the book, and nothing that isn't factually accurate. Go for it.
