REVIEW OF BIOLOGIA SOLOMON OCTAVA EDICION

- As with *Lord Of The Rings* already had in paperback, hardbound, and leather, Needed a

digital copy nice to always have everywhere.

- This is an adventure/fantasy type of book with dragons, elves, dwarves, and other creative characters. The book starts out in Middle Earth, in a town called The Shire. Bilbo Baggins, a respectable hobbit is living in quiet comfort. Hobbits are not supposed to have adventures or do anything out of the ordinary. His normal routines are upset when a wizard, Gandalf the Grey, comes knocking on his door. Gandalf brings 13 dwarves, and an adventure. Their task is to reclaim treasures that the evil dragon, Smaug, had taken from their ancestors. At first Bilbo is reluctant to go, but soon the draw of

the adventure pulls him in. Along the way, the group meets all sorts of evil creatures, orcs, goblins, and of course Gollum. Bilbo meets Gollum when he becomes separated from Gandalf and the dwarves underneath the mountain. Bilbo also finds the ring. He finds it near Gollum's lair, and unknowingly takes it. Soon he discovers what it does, and escapes out of the mountain and becomes reunited with the group. They continue into the mountain to encounter Smaug's lair and take back their treasure. Bilbo returns to the Shire with gold, and jewels, and a more "precious" treasure.
